JAMES E. WHITTEN,
CHARLES H. WOODS.

REPORT OF THE SELECTMEN.

The Selectmen submit the following report for the year ending December 30, 1899.

Wherever edgestones and paved gutters have been placed on streets with steep grades the results have been very satisfactory.

Crosswalks have been laid in a number of places where we considered they were most needed.

Under-drains have been laid in several streets, and this work should be continued, as it will result in a saving in cost of repairs after heavy rains and rapid melting of snow. Although under-drains have been placed in Broadway, it may be necessary to extend them and build additional catch-basins when the street is rebuilt. The whole appropriation has not been expended.

For a more detailed account of the work done on the highways we refer to the report of the Superintendent of Streets.

The location granted in 1898 to the Lexington Street Railway Company for a track on Massachusetts avenue from the car house of the Boston Elevated Railway Company to the Lexington line expired by limitation.

A similar location has been granted the Lexington and Boston Street Railway Company. The track is nearly built, and it is expected that the cars will be running early in the spring. The material removed from the street was teamed to Forest street, and the stone crusher at the expense of the company.

The New England Telephone and Telegraph Company has laid a line of conduits in Massachusetts avenue from the Cambridge line to Park avenue. One conduit is reserved for the wires belonging to the town. The surplus material was teamed to Cemetery street at the expense of the company.

The Metropolitan Water Board has laid a supply pipe the entire length of Medford street; in Massachusetts avenue, from Medford street to Brattle street, and in Brattle street, from Massachusetts avenue to the pumping station.

The Arlington Gas Light Company has laid 2,000 feet of new pipe in Pleasant street.

Three thousand seven hundred twenty-five and six tenths feet of land have been sold from the lot on Mystic street to Ella J. Langley at 5 cents per foot.

Issues of bonds by the Treasurer have been approved as follows:—

$15,000, Arlington Water Loan.
29,000, Locke School Loan.
52,000, Town House Site Loan.
7,000, Arlington Park Loan.

After the contracts for watering the streets had been made, we were petitioned to have other streets watered which we were unable to do, as the teams were covering all the ground possible and the appropriation would not permit the addition of another team. If the street watering is to be extended provision must be made for an additional team.

STREET SIGNS.

Signs have been placed on the following streets: Court, Russell, Water, Russell terrace, Winslow, Prescott (2), Franklin (2), Lewis avenue, Irving (2), Mill, Summer, Bow, Lowell, Park avenue (2), Vine (2), Claremont avenue, Oakland avenue, Hillside avenue (3), Ashland (2), Cliff (2), Linden, Elmore (2); all the sign posts have been painted.

POLICE DEPARTMENT.

One officer has been added to the force. The other members are the same as last year. For a detailed report of the work performed we refer you to the report of the Chief of Police.

FIRE DEPARTMENT.

The Fire Department maintains a high state of efficiency, the engineers, officers and men working harmoniously for that purpose. All alarms have been responded to with great promptness and intelligent service rendered. While we do not wish to make any comparisons, we cannot help calling attention to the fact that the company at the lower end of the town, although poorly equipped with apparatus and having poor and inconvenient quarters, are willing to serve and to respond to alarms promptly and perform good service, as was shown at the fire on Lake street July 4th.

The engineers have so managed the financial affairs that although they have placed a new heating apparatus in the hose house on Broadway at an expense of $410, they still have a balance left of their appropriation.

On August 22d a number of fire alarm boxes were burned out, supposed to have been caused by the Arlington and Winchester Street Railway. The company was notified and the new management met this Board, and this matter and also another burn-out which occurred last year were both satisfactorily settled. The town is to be congratulated on having so efficient a Fire Department.

STREET LIGHTS.

A contract for three years, from April 1st, 1899, has been made with the Somerville Electric Light Company, at $11,500 per year, for 93 arc lights of 1,200 nominal candle power, and 166 incandescent lights of 32 candle power. Additional arcs to be $80 and incandescents $25 per year each. This makes a change in the incandescent lights from 25 candle power to 32 candle power. Reflectors have been placed over the incandescent lights. During the year 5 incandescents have been taken out and 9 arcs and 24 incandescents added.

The present number of lights is 163 incandescents and 98 arcs.

The apparatus for testing the electric current is in process of construction. During the year the following lights have been added:

4	Incandescents	on	Forest street.
3	"	"	Tanager street.
4	"	"	North Union street.
2	"	"	River street.
5	"	"	Park street.
2	"	"	Tufts street.
1	"	"	Chestnut street.
1	"	"	Massachusetts avenue, at Central street.
2	"	"	Franklin street.
1	Arc	"	Decatur, corner N. Union street.
1	"	"	Decatur, corner River street.
1	"	"	Appleton, corner Vine street.
1	"	"	Vine, corner Sutherland road.
1	"	"	Lowell, corner Westmoreland avenue.
1	"	"	Crescent Hill avenue, corner Westmoreland avenue.
1	"	"	Park avenue, corner Oakland avenue.
1	"	"	Park avenue, corner Appleton street.
1	"	"	Park avenue, corner Florence avenue.

This will call for an expenditure of $11,785.60 for 1900.

ALMSHOUSE.

At the expiration of the term of Mrs. B. F. Durgin as superintendent, Mr. John B. Tay was appointed to the position, and he has given perfect satisfaction. During the year two persons have been admitted, two inmates have died, one was sent to the

State Almshouse, where he died, and one has gone away. There are now five inmates, four males and one female.

OUTSIDE POOR.

The expenditures in this department have been quite large, and much work has been required in looking up the settlements of persons who have located here and applied for aid.

SHADE TREES.

The appropriation has been expended in trimming trees, mostly on Massachusetts avenue. A few trees have been set, to replace those which have died during the year. A number of the large trees on Pleasant street died during the summer, and the cause has been attributed to escaping gas.

It will be necessary to elect a Tree Warden the coming year, the same being required by Chapter 330 of the Acts of 1899.

We recommend an appropriation for trimming trees the present year.

CONTRACTS FOR COAL.

The contract for coal was awarded to the Peirce & Winn Company, at the following prices:

Honey Brook Egg	$5.00
Furnace	4.25
Georges Creek Cumberland	3.50
Egg	4.50
Stove	4.75

BOARD OF SURVEY.

The Board of Selectmen, acting as the Board of Survey, has laid out Hawthorne avenue from Robbins road to Park avenue.

Hearings have been given on the laying out of Peirce, Clark and Locke streets on the land of Warren A. Peirce, also on Broadway and Summer street.

EDWIN S. FARMER,
GEORGE I. DOE,
WALTER CROSBY,
Selectmen.

REPORT

OF THE

SUPERINTENDENT OF STREETS.

To the Honorable Board of Selectmen:

GENTLEMEN: I submit to you my annual report for the year ending December 30, 1899.

Winter setting in unusually early, the fall cleaning of streets was not finished, and this was the first work of the season. The scrapings of the streets were teamed to Cemetery street and the Park.

APPLETON STREET.

From Massachusetts avenue to Oakland avenue has required considerable attention. The great amount of water from Oakland avenue and Ashland street overflowing the gutters, caused the sides of the street to wash during every heavy rain. There should be a 15-inch drain from Oakland avenue to Massachusetts avenue, connecting with the avenue drain carrying the water to the brook at Forest street.

BROADWAY.

There has been a 20-inch drain laid from Alewife brook to Winter street, and a 15-inch from Winter street to River street with manholes every 300 feet to get at the drain in case of stoppage. A 12-inch pipe has been laid across the street at Marathon, Cleveland and Winter streets, and catch-basins each side of Broadway at these streets.

A catch-basin has been made at North Union street and five near the junction of Broadway and River street, connected with the main drain by a 12-inch pipe. The drain from Franklin street that was laid along Broadway last year has been extended from Wyman street towards Tufts street 600 feet, with four catch-basins, and a 12-inch pipe laid across the street at two different places, connecting the catch-basins with the main drain. This makes the system of drainage complete on this street, except perhaps a few catch-basins to be added when the street is graded. There has been quite an amount expended in patching the worst places, and I hope the town will put this street in good condition the coming season; for it is a disgrace to the town in its present condition. Amount appropriated for drainage, $4,300; amount expended, $3,568.53.

CHESTNUT STREET.

Has been widened to 50 feet by order of the County Commissioners. A 12-inch drain has been laid from Medford street, in front of W. W. Ranson's, to the large drain at Cemetery street, with four catch-basins connected to the drain by a 10-inch pipe. The street has been graded and a heavy coat of crushed stone put on, and well rolled and covered with screened blue gravel.

The sidewalks have been graded and coated with stone-dust, except in front of the church. This part was not completed as there was going to be a change made at the church, and it was thought better to wait until the repairs on the church were completed.

CEMETERY STREET.

There has been a 24-inch pipe laid from Chestnut street (the terminus of the Massachusetts avenue drain from the centre of the town) to within about 50 feet of the cemetery line.

As Cemetery street is across the meadow with from 10 to 40 feet of mud, there had to be piles driven to a solid foundation,

cross-pieces bolted to the piles and 6-inch x 8-inch hard-pine stringers laid upon the cross-pieces, and then the pipe on them; then cross-pieces bolted to the piles over the pipe with hard pine-pieces, sawed corner ways, placed on the stringers beside the pipe to keep them in place. A part of the ashes and street scrapings have been teamed to this street to make the fill. As the street keeps settling it will require more filling to bring it to grade.

Amount appropriated, $2,230; amount expended, $1,630.90.

CEDAR STREET.

Has been gravelled its entire length.

FOREST STREET.

For a distance of 1,500 feet from Mr. Wanamaker's towards the Winchester line, except a piece of ledge in front of Mr. Jardine's, which it was thought better to let remain until winter, when it could be blasted and carted to the crusher at better advantage, has been widened to 40 feet, as laid out by the County Commissioners. It has been graded, a heavy coat of gravel put on and then coated over with fine crushed stone, well rolled and then coated over with screened blue gravel. The gutters for a distance of 1,000 feet have been paved on both sides.

The sidewalk on the east side has been graded and coated over with fine gravel.

GRAY STREET.

From Jason street to Bartlett avenue has been graded and coated over with fine crushed stone, rolled and then coated over with stone-dust. The sidewalks between these streets have been graded and coated over with stone-dust.

JASON STREET.

From Irving street to Gray was left in a rough condition after putting in the sewer. The surface was picked over, the large

stones picked off high places, levelled into the low ones, a coat of fine crushed stone put on, rolled and then coated over with stone-dust.

LOWELL STREET.

From Massachusetts avenue to near the reservoir has been patched in many places. The sidewalk from Westmoreland avenue to Mrs. Lewis' line, on the west side, has been coated over with stone-dust.

MASSACHUSETTS AVENUE.

From the railroad crossing to within 1,000 feet of the Cambridge line on the southwest side has been coated over with crushed stone. The surface was first picked with the steam-roller, then picked over with hand-picks, the large stones raked off the surface, evened, then a heavy coat of crushed stone put on, well rolled, then coated over with screened blue gravel. Between the railroad and Appleton street, on both sides, the avenue is getting rough. Next season it will have to be surfaced over with crushed stone.

NORTH UNION STREET.

There has been a 24-inch drain laid across the street at the low place near Decatur street with a catch-basin on each side. The ditch has been cleaned out and lowered from this street to the river to properly drain the street.

OAKLAND AVENUE.

Has been gravelled in a few places, the loose stone raked off and the walk on the north side graded and coated with stone-dust. There has been but little done at the Heights, except raking off the loose stones and filling the washed places after a heavy rain. The Heights shows the wisdom of putting in the Park avenue

drain and the paving of the gutters on some of the worst hills. There has been stone-dust put on portions of Park avenue walks, Florence avenue, Ashland street and Appleton street.

The good work of paving gutters should be kept up until the hilly streets are all paved.

PINE STREET.

Has been widened and put in a good condition. A heavy retaining wall has been built on the southwest side about 450 feet long, 4½ feet thick at the bottom and 2 feet thick at the top, and an average height of 8 feet containing about 480 perch of stone. A railing has been put along the top of the wall.

The street has been graded, a coat of fine crushed stone put on and well rolled, and then covered with screened blue gravel. The sidewalks graded on both sides and the southeast sidewalk covered with fine gravel.

A gutter on both sides of the street 4½ feet wide has been paved its entire length.

Appropriation, $2,600; expended, $2,600.

PLEASANT STREET.

From Massachusetts avenue to Swan street has been coated with fine crushed stone and gravel. The sidewalk on the south side concreted from Swan street to Spring valley, except in front of a few residences that had been concreted before.

ROBBINS ROAD.

There has been 1,200 feet of edgestone laid on the north side and the gutter paved along the edgestone. The street has been crowned with gravel and the walk graded on the north side and coated with stone-dust part of the way.

SWAN STREET.

Has been graded and coated over with fine crushed stone, rolled and covered with screened blue gravel. The walks filled to grade and coated with stone-dust.

WALNUT STREET.

A drain pipe has been laid from Dennett street to and across Massachusetts avenue through the Highland Hose House yard to the pond, from the pond to Walnut court. The pipe was 20-inch from the pond to Walnut court and 15-inch from there to the top of the hill, with six manholes and nine catch-basins connected to the main drain with 12-inch pipe. An edgestone has been laid on both sides, except in front of Thomas Higgins', where he has a concreted walk and gutter. The gutters were paved on both sides. The surplus gravel was used in crowning the street and filling the sidewalk.

BRIDGES.

Brattle street bridge has been rebuilt, the channel lowered and slightly enlarged. The centre of River street bridge has been covered over with 2-inch plank. It was thought best not to re-plank it, as it is uncertain what will be done to this bridge in case the Metropolitan Boulevard crosses the river.

EDGESTONES.

There has been 5,000 feet of edgestones laid, about half put in under the betterment act.

SIDEWALKS.

There has been 2,574 yards of concrete laid and 2,998 yards of concrete top-coated. For amount expended on sidewalks see Treasurer's report.

CROSSWALKS.

Have been put in across the following streets: Massachusetts avenue at Tufts street; half across the avenue in front of G. A. R. Hall, the other half being already laid; Massachusetts avenue at Jason street (2); at Mount Vernon street; across Medford street in front of W. W. Ranson's; across Chestnut street from Medford street; across Mystic street at its junction with Massachusetts avenue; one on Massachusetts avenue at Whittemore street; one on Massachusetts avenue at Swan's block; one half way across, and one on Pleasant at Wellington street, at a cost of $2.25 a yard.

CRUSHER.

There should be some repairs done this year; the oscillator should be planed and the surface where the chill rests has become rough, causing the chills to break. There is about the usual amount of stone on hand ready to crush, and there has been 1,200 ton of stone blasted from the ledge and broken up ready for the crusher. Cost of blasting and breaking, 50 cents per ton.

STEAM-ROLLER.

The driving wheels have worn quite thin and are liable to break at any time; there should be another set purchased so as to be ready when the old ones break.

WATERING STREETS.

It has required four double teams and one single team to water the streets this past season. One double and one single team was furnished by the Highway Department and the other three let out by contract.

OFFAL AND ASHES.

Have been removed by the Highway Department the same as last year. There has been one new offal cart and one new ash cart bought for the Health Department this year.

TEAMS AND TOOLS.

One double and two single carts will require new bodies and the single watering cart will need a new tank. All the carts want slight repairs and will need painting. The other tools are in good condition. There are at present 14 horses, 5 double and 4 single road carts, steam-roller, 1 two-horse roller, 1 jigger, 1 road machine, 1 hay wagon, 2 ash carts, 2 offal wagons, 4 two-horse watering-carts and one single watering-cart, 4 double sleds, 2 pungs and 9 snow-plows.

Respectfully submitted,

SAMUEL E. KIMBALL,

Superintendent of Streets.

TREASURER'S REPORT.

EXPENDITURES.

HIGHWAYS AND BRIDGES.

Paid Samuel E. Kimball, Supt., 11 months	$1,375	00
Roscoe C. Kimball, Acting Supt.	140	63
Laborers	20,299	18
Sundry persons for stone	1,294	84

Placed on file	25
Probation	1
State farm	1
Insane Hospital	1
To grand jury	13
Turned over to other officers	2
Cases continued	2
Total	188

POLICE ORGANIZATION.

Headquarters, Town Hall Building.

ALONZO S. HARRIMAN, *Chief.*

PATROLMEN.

Garritt Barry,	Garret J. Cody,
John Duffy,	Daniel M. Hooley,
Andrew Irwin,	Fred E. Smith,
James E. Whitten,	Charles H. Woods.

The chief and two patrolmen are on duty in the daytime; during the night, six patrolmen are on duty.

$8,400 police appropriation and court fees.

For a detailed account of all expenses, see Town Treasurer's report.

APPOINTMENT.

During the past year there has been an increase of one man to the force. April 1st, Fred E. Smith was appointed as patrolman, and assigned to night duty.

NO-LICENSE LAW.

A constant effort has been made during the year to suppress the illegal sales of intoxicating liquor with very gratifying results, ten persons having been summoned into court for liquor nuisances. Eight were fined, one placed on file, and one discharged.

RECOMMENDATIONS.

I would respectfully recommend that another telephone box be connected with the police line, to be located at the corner of Warren and Park streets.

I would also recommend that some kind of a wagon be procured, to be used as a patrol wagon, and general use for this department.

CONCLUSION.

In concluding this report, I desire to thank your honorable board and all others who have so kindly assisted me in the performance of my duties.

I would also thank the members of the department for the prompt and efficient manner in which they have discharged their several duties.

Respectfully submitted,

ALONZO S. HARRIMAN,

Chief of Police.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Honorable Board of Selectmen:

GENTLEMEN—I herewith submit my annual report for the year ending December 31, 1899, offering suggestions and recommendations for your consideration.

Fortunately we have had no large fires with which to contend the past year. No fire getting beyond the building in which it started, showing the promptness of the firemen to respond.

FIRE AND ALARMS.

The department has been called out to thirty-one alarms, eighteen of which were bell alarm and thirteen still or telephone calls; this shows the advantage of the telephone in the hose-houses.

Aug. 29	46	Sarah Hooley house.....	1,000	700	500	....	26	5
Sept. 7		Still alarm, P. Breen.....						
Oct. 25	23	F. Bowman, slaughter house.	2,500	2,000	1,000	....	2,000	200
Oct. 26	23	F. Bowman, slaughter house	....	....	....	....	....	....
Dec. 6		Still alarm, A. F. Brooks house.....	1,900	1,500	1,000	700	...	....

The most serious fire occurred July 20th, at which W. W. Rawson's head-house was destroyed. This was owing to the inflammable condition of the building and the time the building was burning before the alarm was sounded.

MEMBERSHIP.

The membership remains as in last year's report, very few having asked for discharge.

APPARATUS.

The apparatus is as last year. Hose Wagon 3 received a coat of varnish, but further than this but little has been expended. Hose Wagon 2 should go through the repair shop, also Hose Wagon 1.

BUILDINGS.

No extensive repairs have been made other than the keeping up of the ordinary wear and tear.

A new hot-water heater has been placed in Hose 3 house, and I think hereafter there will be no trouble in regard to heating the building.

HOSE.

We have 5,500 feet in fair condition, no new hose having been purchased for two years. Some provision for this should be made at an early period, as it is very important that plenty of good hose be always ready for use.

FIRE ALARM.

This branch of the system is in fair condition. One serious burn-out occurred August 22, caused by the breaking of the guy wire on the Arlington and Winchester Street R. R.

FIREMAN'S RELIEF ASSOCIATION.

The Association is in good condition. We have paid more for sickness this year than ever before, and it is of great benefit to the members. The active members, in case of sickness, receive $5 per week and the past members $3.

HORSES.

A new pair of horses has been purchased for the Truck, which, when broken in, will do good service.

The old horses will be placed in Hose 1. The horses this year have consumed:

866 bushel of oats, amounting to	$319 70
33,009 pounds of hay, amounting to	290 14
4,388 pounds of straw, amounting to	32 63
Total	$642 47

Making a cost of each horse per week, 1.544.

SUGGESTIONS.

Again I suggest that the citizens acquaint themselves with the location of the nearest fire alarm box and the workings of the same. Also, that a few more boxes be placed in different sections of the town.

I would also suggest that a permanent man be employed as a relief. Each permanent man has certain days off each month.

Also would I suggest, that a piece of land be leased and a cheap shed be erected for the storage of the fire department property; and also, that some exercise wagons be purchased.

A storage battery for the use of the fire alarm would be of great saving to the town, also a repeater, and the alarms divided into four or more circuit would be of great benefit.

APPROPRIATION.

To meet the expenses of the ensuing year, I would recommend the sum of $8,500.

CONCLUSION.

I wish to express my thanks to your Honorable Board for the courteous and gentlemanly manner in which you have received me in my official duty. To my engineers, my thanks for the hearty co-operation in all fire matters. To the officers and members, my thanks for the cheerful manner with which they have performed their duty, and for all interest shown; and to the citizens, my thanks for the kind words and interest given to the fire department.

Respectfully submitted,

CHARLES GOTT,
Chief Fire Department.

REPORT

OF THE

SCHOOL COMMITTEE.

FOR THE YEAR ENDING DEC. 31, 1899.

To the Inhabitants of the Town of Arlington:

The School Committee make the following report for the year ending December 31st, 1899.

The total appropriation for the year has been expended, together with the income for the year of the Cutter and Russell funds. It was anticipated at the beginning of the year, that an additional appropriation might be required at the November meeting. This was avoided by the use of a part, $270.00, of the accumulated income of the Cutter fund, leaving the balance of that income about $320.12. The income of the Pratt fund has been used to the extent of $161.25 only. School expenses have now so materially increased that a larger appropriation than usual will be required for the coming year. Our School accommodations are, with the exception of the Cutter building, very satisfactory, and practically all that can be desired. The school expenditures appear in the Treasurer's report.

The dedicatory exercises of the new Locke building took place early in the year, the Secretary of the State Board of Education delivering the address.

On account of the large number of pupils in Grade I. of the Cutter School during the spring term of 1899, Mrs. Helen Learned was employed as assistant for that term. The same conditions at the Crosby School necessitated the opening of an ad-

ditional primary room there, during the spring term. Miss Esther G. Babson was the teacher. Miss Eulalie L. Herald from Holbrook was engaged to act as a substitute for one year in Grades VI. and VII. of the Locke School, a vacancy caused by detailing Miss Sara N. Phelps to supervise the music. Miss Florence Wiley, a Normal School graduate, and teacher of several years' experience was employed to have charge of the new room, Grades IV. and V., opened in September at the Locke building. Miss Vina B. Rogers of Gardner was selected to have charge of the new school, Grade IV., at the Crosby building, opened last September. The resignation of Miss Mabelle E. Porter, of the Cutter School and Miss Ella R. Stearns of the Locke caused vacancies which were filled by the appointment of Miss Eva Gertrude Jones of Stoneham to Grades V. and VI. of the Cutter School and Miss Effie M. Philbrook of Portsmouth to Grade I. of the Locke School.

The Statute requirements relating to physiology and hygiene have been complied with by the passage of a vote substantially as outlined in the last report.

The plan of giving to one man the duties of principal of the Russell School, and the duties of general superintendency, is a good one, and is accomplishing all that could be obtained by the employment of an additional person to act only as superintendent, and at a considerable saving of expense to the town. Mr. Sutcliffe has performed the joint duties of principal and superintendent in a thoroughly satisfactory manner, and it is believed that the condtion of the Schools was never more efficient than at present. The relation between the superintendent and teachers is most harmonious, and the work is being done by all the teachers in a pleasant and profitable manner.

The problem, however, of getting the best results out of public schools is not yet fully solved. The whole subject of school work requires most careful consideration by all parties interested. The

Commonwealth might itself make a wise expenditure of money in securing the service of the most competent persons, to determine the extent and scope of the different subjects to be taught in the schools, and the due use of the time of the pupil during school hours. There ought to be a consensus of opinion among those qualified to judge upon all matters relating to the instructing and developing of the child's mind. The Commonwealth ought to be willing to furnish to towns pamphlets illustrative of the proper method of teaching the different subjects, so that at least one good method might be obtainable by every teacher. Communities, Committees, and Schools employ the present universal method of grading and classification of pupils, partly because other communities, committees, and schools employ it, and partly because of the difficulty of determining what changes should be made. They all seem to be bound fast to a system, which does not merit general approval. Too many subjects are taught in the schools, the time of the pupil is too much "cut up," too little time is left for study during school hours, and there is too little attention paid to the individual pupil, and too little opportunity for the individual's easy and profitable work. In some way classes for recitation work should be made small enough to combine those only who can do the assigned work understandingly and without fret or strain. A great good would come if parents and those otherwise interested, in each community, would turn their attention to school matters. Improvements, if found, depend for their success upon the support of intelligent public sentiment.

The several schools require no individual mention as they share equally the commendation of the Committee. The highest ideals are being sought for by the teachers of each school.

It required only a few dollars out of the general fund to complete the changes for which the special appropriation for the Russell School was made in 1898. Nevertheless about $123.75 was expended this year out of the general school fund for that special

purpose by reason of the action of the town in carrying the balance of that fund appearing in the last report of the Excess and Deficiency account.

The Committee recommend that all school balances should be carried to the credit of the schools and not be diverted to other purposes. If any such balances are to be disposed of otherwise than for school purposes, there should first be returned to the special funds the amounts taken from them.

It is desirable to continue the replacement of the old furniture in the Russell School with that of a modern adjustable pattern, but this can probably be done from time to time out of the general appropriation.

The matter of grading the Crosby yard should be covered by an appropriation specially made for that purpose when the town determines it to be wise to make the improvement. The necessity for action exists at the present time.

The attention of the town is called to the necessity of an enlargement of the girls' play-ground at the Russell School by the removal of the building belonging to the town and adjoining the school lot. A very great improvement will also be made to the street and the neighborhood by the removal. So far as the pecuniary loss to the town is concerned, and as to how much that should be considered, the town alone must be the judge.

The Robbins Spring House should be abandoned at as early a date as practicable. This might be done by the transfer of some pupils from the Cutter District to the Locke District, until a new school building shall be erected in the Cutter District. This new building is in every way desirable.

A prevalence of infectious and contagious diseases has been noted in neighboring places, but thus far no condition of things has existed here to require the closing of any of our schools. The Committee will, however, be ready to act promptly with the Board of Health whenever the exigency arises. The ease with

which disease may spread through the massing of pupils in large schools, may sometimes require the dismissal of a school through a reasonable anticipation of danger without waiting for the actual presence of disease among the pupils. Too careful observation by teachers and superintendent as to the physical condition of the pupils cannot be made. Parents sending their children out from under their own care to the custody of the teacher have a right to demand that the utmost precautions be taken, and that they be notified as soon as symptoms of a dangerous disease appear.

A superintendent's office has been fitted up on the first floor of the Russell School, at small expense, for the better accommodation of the public. Heretofore the superintendent has been obliged to see parents either at his own home or in the store-room in the basement.

The matter of a business course at the High School is still being considered. There is a diversity of opinion upon the length and scope of such a course, and the experience of any one locality is not necessarily conclusive. The additional expense is a matter to be considered. It is possible that some adjustments can be made which will reduce the amount of the additional outlay. The course should be of a truly disciplinary character, and as far as possible business methods should be taught and business knowledge acquired in a business way and not merely from books.

William H. H. Tuttle,
Chairman.

STATISTICS.

The following table indicates 1,514 pupils enrolled during the year, 1,386 on December 22d, 1347.2 average membership, 1,263 average attendance, and 93.7 per cent attendance. In 1898 the record was 1,298 December 23d, 1259.9 average membership, 1171.4 average attendance, and 92.7 per cent attendance. The 1,386 pupils at the end of the year, December 22d, 1899, were divided as follows:

High School 123; Grade IX. 100, making 223 in High School Building. A year ago it was 207.

Russell School 490. A year ago it was 440.

Crosby School 280. A year ago it was 260.

Cutter School 193. A year ago it was 193.

Locke School 210. A year ago it was 198.

The per cent of attendance for the year is 93.7.

The increase in the Crosby School was owing to the retention this year of 8th grade pupils, who heretofore have been sent to the Russell School. If these pupils had gone to the Russell School the total increase in that district would have been 70 pupils instead of 50, and the number in the Crosby School would have remained the same as last year.

REPORT

OF

ARLINGTON PARK COMMISSIONERS

FOR 1899.

No work has been done on the Menotomy Rocks Park, except what has been done by the care-taker employed during the summer months. Considerable filling has been done on the park lands near Mt. Pleasant cemetery, the Commissioners having taken for this purpose all the material that has come to their notice that could be obtained for the price offered by the town, 15c. for single loads, and 30c. for double loads.

In the settlement for lands taken for Menotomy Rocks Park there were four parcels that the Commissioners were unable to settle for at a price which they thought was fair for the town to pay. The owners of these parcels therefore brought suit against the town for damages on account of the taking of their lands. These suits were tried in court in November, and awards were made as follows:

Harrison Swan, $724.09; interest, $4.10; costs of court, $44.37; making a total of $772,56.

Heirs of Henry Swan, $724.09; interest, $4.10; costs of court, $48.07; making a total of $776.26.

Thomas C. Morton, $3,843.09; interest, $21.77; costs of court, $33.69; making a total of $3,898.55.

Artemas Frost, $500.83; interest, $2.83; costs of court, $33.69; making a total of $537.35.

*These amounts, together with the amounts paid in settlement for all the other lands taken, come a little within the $15,000.00

*Suits settled Jan. 20, 1900.

appropriated for the taking of lands for public parks. The expense of defending these suits will have to be provided for outside of the appropriation.

For a detailed statement of the amounts paid for lands taken, and of all other expenses of the Commission, we respectfully refer to the report of the Town Treasurer.

In the matter of Boulevard around the shores of Spy Pond, considerable preliminary work has been done on this line, but it is not sufficiently advanced at the present time to make any detailed report thereon.

Respectfully submitted,

J. Q. A. Brackett,
W. W. Kimball,
S. Frederick Hicks,
Arlington Park Commission.

REPORT

OF THE

BOARD OF HEALTH.

During the year 1899 there were reported to the Board of Health of the town of Arlington sixty-eight cases of contagious disease.

Of this number, forty-four were measles, the remainder, twenty-four, being made up of eight cases of scarlet fever, fourteen cases of typhoid fever, and two cases of diphtheria. These numbers are unusually small, as may be seen by consulting the Board of Health report of 1898, where there were eighteen cases of diphtheria, twenty-one cases of typhoid fever, and seven cases of scarlet fever.

Believing that measles is a disease dangerous to the public health, we include it in the list of such diseases, and require physicians to report every case to the Board of Health, that suitable measures may be taken to prevent the spread of the disease.

The disease is like scarlet fever in its power to spread from person to person by contagion. It is especially dangerous because of the complications, of which abscess of the middle ear and broncho-pneumonia are the most to be feared.

The desirability therefore of keeping this disease out of the schools is apparent, and we have formulated certain rules applying to such cases, which, we hope, parents and physicians will cooperate with us in observing for the benefit of the public health.

Within the year many houses have been connected with the

sewer, thereby generally improving the sanitary condition of the town.

It is urgently recommended that *all* dwellings be connected at the earliest possible date. Measures have been taken rendering it possible for cesspools to be promptly emptied at a moderate expense by applying to the clerk of the Board of Health.

The entire water service of the town has been replaced by the Metropolitan, which promises water of an almost unlimited quantity and exceptional purity.

PLUMBING INSPECTIONS.

During the year ending December 31, 1899, one hundred and forty-two applications for permits to perform plumbing were received, and written permits duly issued therefor.

In accordance with our rules and regulations, required tests have been carefully made, and in each case the inspector endeavors in every way possible to secure the construction of thorough and substantial work free from sanitary or other defects.

Notable progress in improvement of plumbing has been made from year to year under the requirements of the law, but to avoid defects from carelessness, incompetency, or dishonesty, the utmost care is required in making examinations and tests.

To conform with public statutes and provide additional rules concerning sewer connections and other requirements, revised and improved plumbing regulations were adopted, to take effect February 11, 1899, and supersede previously existing rules.

SLAUGHTERING ESTABLISHMENTS.

In February, 1899, our Board took decisive measures to abate nuisances caused by the slaughtering of calves and other animals at various establishments within our town limits, located chiefly

upon the territory adjacent to the lower Mystic. After protracted hearings and careful investigations, it was determined that premises owned by Frank Bowman, located at 27 Broadway, be exclusively assigned as a proper place where the business of slaughtering animals may be conducted under State and Town regulations relating thereto. Mr. Frank P. Winn was appointed Town Inspector of said slaughtering.

HEALTH REGULATIONS.

New and revised general regulations, very carefully prepared and codified, were adopted by our Board and published, to take effect October 10, 1899.

Copies have been printed for distribution in pamphlet form and can be obtained at the office of the Board, Town Hall.

We herewith append our Mortuary Record for 1899.

Edward S. Fessenden,
Edwin P. Stickney, M.D.,
Edwin Mills,
Board of Health.

REPORT

OF THE

SEWER COMMISSIONERS.

The Board of Sewer Commissioners hereby present the engineer's report of the work of the department for the year 1899, the same having been accepted and approved.

EDWARD S. FESSENDEN,
WINFIELD S. DURGIN,
WARREN W. RAWSON,
Sewer Commissioners.

To the Honorable Board of Sewer Commissioners:

Herewith is respectfully submitted the annual report of the work done under the supervision of the Sewer Department for the year ending December 30, 1899.

At the date of the last annual report, the Lowell Street sewer from Park Avenue to Westmoreland Avenue was under process of construction. As has been previously stated, it was necessary to lay the portion of this sewer between Park Avenue and Lowell Street Place at a grade that would allow the proposed sewer in Lowell Street Place to drain to Lowell Street. Consequently an average cut of nearly fifteen feet was required. A large quantity of ledge was encountered in this section, as was also throughout the length of Lowell Street, 637 cubic yards being excavated on the entire work. The soil was a very hard blue gravel, which, combined with the amount of ground water found, greatly delayed the progress of the work.

It was desired to complete the sewer on Lowell Street as soon as possible that the same might be available for use at the beginning of spring, as well as to allow for the construction of the

Lowell Street Place sewer to be proceeded with, the territory there needing immediate relief. On account of the severe weather throughout November and December, 1898, it was impossible to complete the work as soon as expected.

The pipe was finally laid January 29, 1899. It was not possible to puddle and replace the whole of the backfilling in the trench and to clean the street until the frost had left the ground, although the street was not closed for travel except for a few days. This work completed the building of Section VI., which had been contracted for with Charles G. Craib & Co. The sewer in Massachusetts Avenue, which was being constructed by the Commonwealth of Massachusetts, was also finished about this time. This completed the Section from Massachusetts Avenue at the junction of Lowell Street through Lowell Street, Private Land, Park Avenue and Massachusetts Avenue to the Lexington Town line.

In anticipation of the needs for the coming year and because of the difficulty in having sewer pipe delivered here, subject to inspection, it was decided to have the pipe inspected at the works of the manufacturers. Upon an inquiry of price and quality of pipe in the market, a contract was made through the Peirce & Winn Co., with the National Sewer Pipe Co. of Barberton, Ohio, whereby they agreed to furnish the town with nineteen carloads of first quality pipe, the same to be thoroughly and satisfactorily inspected at the works of the Company by a representative of the Sewer Department.

They further agreed to pay half the travelling expenses of the inspector to Ohio, and to deliver the pipe F. O. B. cars at Arlington and Arlington Heights subject to additional inspection for breakage. This method resulted in the town's securing not only a superior grade of pipe, but at a less cost than would otherwise have been possible.

The first work on new construction this year was undertaken

at Arlington Heights, comprising the district known as Section VII., and made possible by the building of the sewers of the previous year, being really an extension of them. This Section included Lowell Street Place (off Lowell Street), Tanager Street (the entire length), Wollaston Avenue (from near Claremont Avenue to Wachasett Avenue), Florence Avenue (from Appleton Street to Ashland Street), Appleton Street (from Vine Street to Ashland Street), Ashland Street (from Appleton Street to Florence Avenue), and Cliff Street (from Florence Avenue to near Linden Avenue); also Vine Street from the Metropolitan Sewer on Massachusetts Avenue to Sutherland Road, and Robbins Road extending to the Robbins Spring Hotel. It was intended to include a portion of Crescent Hill in this Section, and plans were made and recorded taking land for sewer purposes in the private streets. A petition, however, was received from the property owners, requesting that the sewers be not built for the present, and accordingly the work was postponed.

The construction of the sewers in Section VII. was done by H. A. Hanscom & Co. of West Medford, they being the lowest of six bidders. The building of the sewer in Tanager Street necessitated excavating to an average depth of twelve feet for the greater portion of the way, because of the low ground on the northerly side of the street.

The soil was extremely hard, and many boulders of large size were found. Ledge was encountered on all the streets included in the Section in greater or less quantities. The whole amount excavated under the contract was 602 cubic yards.

The completion of this work provides for all the residential portion of Arlington Heights, with the exception of the lower end of Appleton Street and Oakland Avenue. As soon as the Robbins Road sewer was ready for use, the Robbins Spring Hotel buildings were connected, as were also the other buildings along the street belonging to this estate.

Upon the application of Patrick J. Kelley for a connection with the sewer from his house in the rear of No. 21 Mt. Vernon Street, it was thought best to extend the Walnut Court sewer about 33 feet and connect the house direct into that sewer. This was done at a cost of $38.45, Mr. Kelley paying the additional cost of the particular sewer in connection therewith.

The rapidly increasing growth of Belknap Street required that a sewer be provided there, and it was therefore built with an outlet through Linwood Street to Massachusetts Avenue, the work being done by day labor. The material was sand for the most part, and the surplus remaining was saved for the future use of the Department.

On Gray Street, from Pleasant Street, to the house of John G. Leetch, the drainage was giving trouble and a sewer was desired. The Commissioners directed that the sewer be built. A contract was made with Michael J. Kelley of Arlington to blast 29 cubic yards of the ledge, the Department doing the remainder of the work by day labor.

When the Metropolitan Sewer was built along the Cambridge side of Alewife Brook below Lake Street, a branch was laid across the brook at the Boston & Maine R. R. which was to be the outlet for all the territory adjacent and tributary to Lake Street, to the lower end of Pleasant Street and to the southerly side of Arlington Heights. Before sewers could be built in these sections, it was necessary to extend a sewer from the outlet at Alewife Brook (already mentioned) to some point on Lake Street near the Boston & Maine R. R. crossing. A marsh surrounds the outlet in all directions and is usually covered with water of varying depth. It was through this and the low ground beyond that the pipe must be laid. Owing to the extreme dryness of the season, the Commissioners determined to do the work at once and thereby insure a better quality of work and a saving in cost. A large part of the land near Lake Street is now used for extensive

market gardening purposes, and is not laid out into streets, as the land will probably be developed. Consequently it was impossible to locate the sewer in any proposed street or way. After considering the matter carefully, an agreement was made with the Boston & Maine R. R. to allow the Sewer Commissioners to build and maintain a sewer along the easterly line of the railroad location within a strip of land five feet wide from Lake Street to the outlet,—a distance of 2,556 feet. A contract was made with H. A. Hanscom & Co. of West Medford, and work was begun July 5, 1899, the town furnishing all stock and materials, excepting lumber and gravel. The work was difficult of execution because of the nature of the soil to be excavated, the amount of water to be handled, and the remote location of the work from existing streets, which caused much inconvenience and labor in delivering the material needed for the construction. The entire length of the trench had to be close-sheeted with plank, and a large quantity was left in place after the pipe had been laid by reason of the mud and soft material encountered and the close proximity to the railroad track. Under drains from four to six inches in diameter were laid and covered with screened gravel to convey the water to the pump wells. The sewer pipe, which was 15 and 18 inches in diameter, was laid on a concrete foundation and secured on the sides and over the crown of the pipe with the same material. Piles were driven over a section of the trench about 325 feet in length, on which a timber platform was built to support the pipe and its foundation. The piles driven were of an average length of 14 feet, some being over 20 feet long. A portion of the location was on a 3° curve. The manholes here were placed 160 feet apart, the water table and dome being built all on one side and opposite to the track, in order to occupy as little railroad land as possible.

While the plans and details for the construction of the outlet sewer were being prepared, a sewer in Lake Street from the Bos-

ton & Maine R. R. to Massachusetts Avenue was built and was included in the contract of Section VII., which had just been completed. It was hoped that it would be possible to build a sewer in Brooks Avenue from Lake Street to Barnes Lane before the season closed. The Metropolitan Park Commissioners had plans for the location of a new Boulevard under consideration, which would undoubtedly affect the future layout of Brooks Avenue. No decision having been arrived at, it was impossible to proceed with the construction. It is probable that this work can be done early in the coming spring.

The total length of sewers constructed during the year was 10,953 feet, or 2.10 miles. This brings the total length in the town to 20.05 miles. As stated last year, 2.62 miles were sold to and 0.85 miles were built by the Commonwealth of Massachusetts, to which particular sewer connections can be made direct and by the same method as with those owned by the town.

The total money expended for sewers and maintenance in 1899 was $50,618.89 and the assessments levied were $28,480.27. The total assessments, including special assessments, to date (January 1, 1900), number 1,524 and amount to $111,406.06.

MAINTENANCE.

All the sewers have been thoroughly cleaned and inspected, and found to be in good condition. The same methods employed last year for flushing and cleaning have been continued.

Water services have been placed in end manholes as needed, and have proved of great convenience and efficiency. No repairs have been required throughout the year, with the exception of the changing of the grade of several manholes frames, which must be kept in conformity with the ever-changing surface of the streets, and the replacing of some brick work at a few manholes which had been disturbed by the frost.

Reference to the Town Clerk's report will give an itemized list of the expenditures for the year.

PARTICULAR SEWERS.

The work in this department has been continued along the same general lines as heretofore. Rules and regulations governing the construction and use of particular sewers have been compiled and published, and placed in the Town Clerk's office for distribution. Great care and attention has been given to details, to the keeping of records of grade and location, and the general construction of the work. All connections have been shown on the assessment plans, and notes and books have been properly referenced.

There have been 125 entrances made with the sewers during the past year, making a total length of 7,178 feet, or 1.36 miles at an average of 58c. per linear foot. There are now 473 particular sewers constructed and in operation which connect with 536 buildings, and which represent a total length of 5.76 miles.

IN GENERAL.

Beginning March 21, 1899, the horses and wagons belonging to the Department have been kept at the stable at the corner of Broadway and Webster Street, which was hired for the purpose. At this time a horse and light wagon was purchased for the use of the Superintendent, and are of great value and assistance in supervising the work of the Department.

An eight foot fence has been built around the Linwood Street yard, enabling the Department to keep the pipe and other material stored there in better condition. A house has also been built at Linwood Street, capable of holding two carloads of cement, with room for tools and supplies additional. The town can now buy cement at wholesale prices and unload directly from the cars to the new house. This will also do away with any delay

caused by a short supply in the market, as was experienced the past season.

The compiling of all plans as well as the drafting has been done by the Department, with the exception of some surveying on Section VII., and the looking up of titles in connection with the sewer assessment plans made necessary by the limitation of time.

Following is a schedule of property in charge of this Department:

Sewer Notes and Books of Record. (The value cannot be stated.)	
2 horses	$325 00
2 wagons	275 00
Stable equipment	173 00
Tools	905 00
Sewer pipe at Linwood St. Yard	1,192 00
Sewer pipe at Arlington Heights	781 00
Cement house and fence, Linwood St	568 00
Tool house, Winslow St	50 00
Tool house, Arlington Heights	40 00
Lumber	103 00
Brick	6 00
Sand	6 00
Castings and iron pipe	163 00
Office fittings, supplies and instruments	448 00
Surveying instruments	345 00
Sewer plans, estimated cost, to date	8,000 00
	$13,380 00

Respectfully yours,

ROBERT W. POND,

Engineer and Superintendent.

REPORT

OF THE

Trustees of the Robbins Library

To the Town of Arlington:

The Trustees of the Robbins Library submit their annual report:

We find a still further increase in the number of books and magazines taken out, 47,815 for 1899 as against 46,758 in 1898. The patronage of the reading-room remains about the same, while the average Sunday attendance shows a slight increase. Since October books have been delivered on Wednesday evenings until nine o'clock. Two years ago we began the recataloguing of the Library, issuing a Fiction List in the Fall of 1898, and offering it for sale at the nominal sum of ten cents a copy. During the past year this work has been carried to a successful completion by the publication of a Non-Fiction List, which has been offered at the same price. These catalogues are used freely in the Library, and greatly facilitate the finding of books. The sale for home use has not, however, been so great as might reasonably be expected and we would call special attention to this important aid to the use of the Library, which only needs to be known to be appreciated.

Eight exhibitions of photographs have been made, beginning in March, 1898.

1. Photographs of the New Congressional Library. Loaned by Miss Alice Chandler of Lancaster.

2. Views of New England. Loaned by the Boston & Maine R. R. Co., May, 1898.

3. Stella photographs of Alpine Scenery. Loaned by the Appalachian Club, October, 1898.

4. Photographs of Florence. Loaned by the Massachusetts Library Art Club, March, 1899.

5. Photographs of Venice. Loaned by the Massachusetts Library Art Club, May, 1899.

6. Platinotype Exhibition, July, 1899.

7. Western and South Western Scenery, September-October, 1899.

8. Exhibition of the "Youth's Companion," December, 1899.

A valuable collection of oil paintings, owned by Mr. Willard C. Schouler of Arlington, was also exhibited in June, and greatly admired.

A large and handsome portrait of Miss Louisa M. Alcott in crayon was presented to the Library in February, 1899, by the Misses Niles, and hangs on the north wall of the catalogue room.

Mr. Winfield Robbins has continued his generosity by the addition of many books and pictures during the past year.

The editors of the "Advocate" and the "Enterprise" have sent complete files of those papers, and have published our lists of new books.

The Library has not only been recatalogued, but the books have been renumbered and classified according to subjects, greatly simplifying the work of the attendants, and making it possible, we hope, at no distant date, to give to the public greater degree of freedom in the use of the books than heretofore.

The cost of the Catalogue, which has come out of our general income, has greatly restricted us in the purchase of books, the demands of the reading public being far greater than the ability of the Trustees to meet them.

With heavy fixed charges for service, heating, lighting and repairs, it would seem as if a larger sum must be found for the pur-

chase of books if we are to keep pace with the increasing requirements of the town.

In the appended statement will be found the statistics for 1899, a list of periodicals now taken and a statement of the hours during which the Library and reading-room are open.

Respectfully submitted,

SAMUEL C. BUSHNELL,
E. NELSON BLAKE,
FRANK W. HODGDON,
JOSEPH C. HOLMES,
JAMES P. PARMENTER.
MATTHEW ROWE,
Trustees.

LIBRARIAN'S STATEMENT.

LIBRARY HOURS.

SUNDAY.—*Reading Room*, 2.30 to 5.30 P.M.

MONDAY, TUESDAY, THURSDAY, AND FRIDAY.—*Reading Room*, 10 to 12 A.M., 1 to 6 and 7 to 9 P.M. *Book Room*, 1 to 6 P.M.

WEDNESDAY AND SATURDAY.—*Reading Room*, 10 to 12 A.M., and 1 to 9 P.M. *Book Room*, 1 to 9 P.M.

Library is *closed* on Washington's Birthday, Patriots' Day, Memorial Day, Seventeenth of June, Fourth of July, Labor Day, Thanksgiving, and Christmas.

LIBRARY HOURS, ARLINGTON HEIGHTS READING ROOM.

TUESDAY AND SATURDAY.—1.30 to 6, 7 to 9 P.M.

THURSDAY.—3 to 6, 7 to 9 P.M.

Books left at the Reading Room on *Tuesday* and *Saturday* between the hours of 1.30 and 3.30 P.M. will be exchanged, and books will be ready for delivery from 7 to 9 P.M. of the same day.

Books not left at the Reading Room on or before 3.30 P.M. on the days when due will be subject to fine.

REPORT

OF

WATER COMMISSIONERS.

The Water Commissioners herewith submit their annual report for the year ending December 31st, 1899.

The pipe systems have been extended and renewed, asrequired, during the year. The low-service system has been extended on Fairview avenue and Walnut street, and pipes have been laid into Walnut court. On the high-service pipes have been laid in Robbins road, Hawthorne avenue and Gray street (Atwood avenue). This latter system of pipe, with its reducing valve, located at the head of Walnut street, gives us a double reducing system and a second loop between the mains on Park and Massachusetts avenues. Other slight additions to the low-service system were required when connections were made with the metropolitan System, and about 50 feet of cement-lined pipe have been replaced by iron pipe on Broadway, where the drains of the Highway Department required the lowering of the water pipes.

As stated in our last report, the town was admitted to the Metropolitan Water Dstrict on January 31st, 1899, and the promises as to the times when the town would be supplied with water have all been fulfilled.

The several details will be given below under their respective headings.

PIPE EXTENSIONS AND RENEWALS.

In all, there have been laid 31.8 ft. of 10-in. and 4945.8 ft. of 6-in pipe, a total of 4977.6 ft.; 10 hydrants and 16 gates were set, and 2 old hydrants were removed from the low-service system.

There have been added this year 87 services, 52 connected with the high, and 35 with the low service. Four services have been transferred from the low to the high and one from the high to the low service. There have also been added 7 services for flushing sewers. 492 ft. of 4-in. cement lined pipe have been removed from Brattle street to make way for the pipes of the Metropolitan System. The following tables show the extensions in detail:

To extend the High Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Robbins road } Hawthorne avenue }	3231.9	6	6	6
Gray street (Atwood avenue.)	1084	6	2	6

In all 4315.9 ft. of 6-in. pipe, 8 hydrants and 12 gates.

To extend the Low Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Medford street.....	....	..	..	2
Parallel street	31.8	10	..	1
Fairview avenue.....	210.	6	1	..
Walnut street } Walnut court }	289.5	6	1	1

In all 31.8 ft. of 10-in. and 499.5 ft. of 6-in. pipe, 2 hydrants and 4 gates. One hydrant has also been set on the estate of Wyman Bros., Lake Street.

To replace cement-lined pipe on Low Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Medford street.....	81.8	6	..	..
Broadway	48.6	6	..	..

In all 130.4 ft. of 6-in. pipe.

To supply the special hydrant of Wyman Bros. on Lake Street, 320 ft. of 6-in. iron pipe were laid in their estate for which they paid the entire expense.

To eventually replace cement-lined pipe.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Broadway	950	10	2	..
Broadway	1,666	8	..	..

This pipe was laid dry in 1897 in anticipation of a regrading of the street in 1898. It is very desirable that the regrading be completed as soon as possible, so that this large pipe may be placed in service, thus insuring better fire protection to the lower part of the Town.

There are now in hand applications for pipe extensions on the following streets:

Eastern Avenue, Hawthorne Avenue, Grand View Road, Pine Ridge Road, and Forest Street.

PRESENT PIPE SYSTEMS.

Length of main pipe in use Jan. 1, 1900.

LOW SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Cement-lined pipe.....	12	10,991		
" "	8	5,321		
" "	6	16,266		
" "	4	23,992		
Total.....	.....	56,570	82	56
Iron pipe.....	12	150		
"	10	2,432		
"	8	6,480		
"	6	10,608		
"	4	12,207		
Total.....	.....	31,877	69	64
Total both kinds.....	.....	88,447	151	120
		16.751 miles.		

HIGH SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Iron pipe	12	16,503		
"	10	17,180		
"	8	9,500		
"	6	38,566		
"	4	524		
Total.....	.....	82,273	166	132
		15.581 miles.		

Total of both services: 32.33 miles of pipe, 317 hydrants, and 252 gates. The pipe laid dry in Broadway and not used is not included.

In addition to the above there are 3,436 feet of smaller pipes, 2 in. to $1\frac{1}{4}$ in., which are laid in places where hydrants were not needed and the amount of water desired was small.

The details of the cost of the pipe extensions will be found in the Report of the Superintendent. Records and sketches showing the location of the pipes and connections have been made and arranged in convenient form for use and reference.

QUALITY AND QUANTITY OF WATER.

The high-service supply was drawn from all of the wells except two, which were found to give very much more iron than the others. The ordinary poor quality of this water was rendered much worse by the very dry season.

The low-service supply was taken in great part from the brook direct, and was as good as could be expected.

It is believed that the Metropolitan water we are now using is of excellent quality and sufficient in quantity, and that there is every reason to think that when the large storage reservoir is completed its quality will be even better.

On account of the very dry season just passed the town may indeed be considered fortunate in its admission to the Metropolitan District. Had the low-service supply not been connected early in the season, we would undoubtedly have experienced a water famine.

ADMISSION TO THE METROPOLITAN SYSTEM.

An account of the action leading to the admission of the town to the Metropolitan District was given in the report of last year; the following additions are made to place the entire matter on record:

On January 31st, 1899, the Metropolitan Water Board passed

the following vote, admitting the town to the Metropolitan Water District:—

"Voted, That the town of Arlington having applied to be admitted into the Metropolitan Water District, under the provisions of Chapter 488 of the Acts of the year 1895 and Acts amendatory thereto, and having paid the sum of thirty thousand dollars, that being the sum required by the Metropolitan Water Board to be paid by said town upon its admission into the Metropolitan Water District, that is to say: having paid in cash the sum of fifteen thousand dollars and having conveyed to the Commonwealth a circular lot of land in said Arlington, with the standpipe thereon, together with certain pipes and other property, and the right to use other pipes, the same being received in lien of a payment of an additional fifteen thousand dollars, be admitted into the Metropolitan Water District, and that said town shall be furnished with water on the terms prescribed by said act of 1895, for the cities and towns named in Section 3 thereof."

As soon as practicable, plans were made to extend the Metropolitan water mains into Arlington, and land was purchased for a pumping station at the head of Brattle court, near the Boston & Maine R. R.

The system, now in place, is as follows: A 20-in. main connecting with a 24-in. main in West Medford passes under Mystic river and along Medford street to Massachusetts avenue, thence along Massachusetts avenue to Brattle street, thence down Brattle street and down Brattle court to the pumping station. A 16-in. high-pressure main returns alongside the main in Brattle court and Brattle street and connects with our high-pressure system on Massachusetts avenue, near the head of Brattle street. These Brattle street pipes having been laid in place of our 4-in. low-service pipe required its removal, and in its stead the town was allowed an additional connection to the Metropolitan main, near the head of Dudley street.

The low-service system is now supplied through a 12-in. connection with the Metropolitan main at each of the three following locations: Medford street at head of Parallel street, Massachusetts avenue at head of Medford street, and at head of Brattle street; and through an 8-in. connection placed on Brattle street at head of Dudley. With this 20-in. main as a feeder, and the various connections allowed us, no pipes larger than 12-in. diameter will be required on our low-service system.

The pipe in Medford street was competent in June and water was turned on to the low-service system on June 30th, 1899, through the connection at the head of Medford street. The water was turned on to the connection at Parallel street in October. During the summer and fall the mains on Massachusetts avenue and Brattle street were laid.

The proposed connection of the Metropolitan high-service main with our high-service at the head of Brattle street required moving the reducing valve, formerly at the head of Forest street, to the head of Brattle street. The expense of moving this valve and of making all connection with our mains was borne by the Metropolitan Water Board.

The unprecedented increase in demand for, and cost of, pumping machinery, during the past year, delayed the Metropolitan Water Board very much in carrying out their proposed plans for a new pumping station. At the suggestion of your Water Board it was finally decided to fit up a temporary pumping plant as soon as possible, transferring such part of our plant as was available to the temporary building constructed on the pumping station lot. For the machinery thus transferred the town received $2,500.00.

On January 1st, 1900, the pump at the temporary station was started, and on January 2d the remaining pump at East Lexington was stopped. Since this time water has been supplied to the high service from the Metropolitan mains. During several weeks, as was to be expected, the high-service water was roily, due to a

stirring up of the sediment in the pipes by the reversal of the current, but this is only a temporary trouble.

The Metropolitan Water Tax for the year 1899 was $2,889.15, on which a rebate was allowed, at the rate of $12.00 per million gallons, for water supplied from our sources up to June 1st, 1899, amounting to $1,042.80, thus making the net tax $1,846.35.

The assessments for the following years cannot be given exactly, but are estimated to be about as follows:

1900	$4,200 00
1901	5,500 00
1902	6,800 00
1903	7,600 00
1904	8,900 00

The rebate on our 1900 assessment is estimated at about $910.00.

PUMPING STATION.

This now contains only the boiler, suction pipes, and air pump used in connection with the driven wells. Table I. gives the pumping statistics for the year 1899, with appended columns at the right giving corresponding statistics for the years 1897 and '98. It will be seen that the quantity of water used is decidedly on the increase, and is much more than it should be.

STAND PIPE.

According to a vote of the town at its annual town meeting the stand pipe, with a circular lot of land 80 ft. in diameter, was sold to the Commonwealth, and it is now cared for by the Metropolitan Water Board.

RESERVOIR.

The reservoir has received the usual cleaning and attention.

WATER METERS.

On June 19th, 1899, new rules governing the use of water for other than domestic purposes were made, for the purpose of more equally assessing the charges for water and also for the prevention of unnecessary waste of water. To this end it was decided that all water for field irrigation, green-houses or hot-houses, hot-beds and wash-houses must be metered, and notices were issued fixing new meter rates for such purposes, which may be found in the Rules of the Water Works appended hereto. At the same time it was decided best not to meter water for domestic purposes and to limit the use of lawn hose to three hours per day, as is done in most communities to prevent the useless waste of water. 54 meters were added this year; 66 are now in use.

USES AND INCOME.

From the catalogue of services and books of the Water Registrar the following table has been prepared, showing the number of fixtures supplied:

	High.	Low.
Number of services	410	1,084
Houses paying maximum charge of $25	194	300
First faucets	424	1,280
Additional faucets	912	1,463
First bath-tubs	321	627
Additional bath-tubs	3	10
First water-closets	367	785
Additional water-closets	133	202
Vaults flushed with kitchen sink-water not used in connection with a water-closet	5	114
Hand-hose	245	429
In stables — horses	45	344

STOCK.

There is on hand, in addition to small quantities of pipe and fittings of all sizes and necessary tools and fixtures for repairing and carrying on the works, about 3,000 feet of 6-in pipe, 1,536 ft. 8-in. pipe, 600 ft. 10-in. pipe, and 3,000 ft. service-pipe.

RECOMMENDATIONS.

We make the following recommendations:

That all the cement-lined pipes on the low-service be replaced by iron pipes at as early a date as possible, beginning at the points where the pipes are giving the most trouble and where the pressure is highest. This is especially desirable to make available a possible increase of about 10 lbs. per square inch when the reservoir at Spot Pond shall have been completed.

That the water pipes be extended according to the established rules.

That the reservoir be maintained at its present level and used, if necessary, as a reserve or auxiliary water supply, the grounds around it to be laid out as a park whenever funds are available for such purpose.

Respectfully submitted,

George W. Lane,
Peter Schwamb,
George P. Winn,
Water Commissioners.

EXTRACTS FROM RULES OF WATER-WORKS.

SECTION 15. The following rates will be charged annually for the use of water, namely:

DWELLING HOUSES.

Occupied by one family, for the first faucet.....	$6 00
For each additional faucet, to be used by the same family	2 00
For set tubs not supplied with faucets and filled by hose or other means, and for faucets supplied with portable tubs, the charge will be one-half the regular rates.	
For basins not connected, but convenient to other fittings, the rate will be $1.00 per year.	
Where a house is occupied by more than one family, one faucet only being used for all, for each family	4 00

Where a house is occupied by more than one family, the highest rates will be charged for each family, having the water carried into their part of the house:

Whenever one service-pipe supplies *four* or more tenements, and the rates are paid by the owner, there shall be a discount of ten per cent: *provided, however*, that in no case shall the net charge per tenement be less than thirteen dollars per year.	
For the first bath-tub.....	$5 00
For each additional bath-tub.....	3 00
For bath-tubs convenient to faucets, but not connected, the rate will be $3.00 per year.	
For the first water-closet.....	$5 00

For each additional water-closet	3 00
For hopper water-closets	8 00
For vaults flushed with kitchen sink water, in case such vaults are not used in connection with a water-closet, the rate will be $2.00 per year. When such vaults are used in connection with a water-closet there will be no extra charge.	
Where bath-tubs or water-closets are used by more than one family, for each family	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both: *provided*, that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet	$10 00
Each additional faucet	2 00
Water-closet or bath-tub, when used by boarders	10 00
Each additional bath-tub or water-closet	3 00

STORES, OCCUPIED AS OFFICE, SHOP, OR SIMILAR PURPOSE.

First faucet	$6 00 to $20 00
For each additional faucet	2 50
For water-closet or urinal	6 00

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, restaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water	$6 00 to $25 00

HOTELS.

For each bed for boarders and lodgers	$3 00
For each bath-tub in a hotel	10 00
For each water-closet in a hotel	10 00

PUBLIC BATHS.

For one tub in a public bath-house	$10 00
For each additional bath-tub	5 00
For one water-closet in a public bath-house	10 00
For each additional water-closet	3 00

STABLES.

Private Stables.	For the first horse	$5 00
"	For each additional horse	3 00
"	For one cow	2 00
"	For each additional cow	1 00
Livery club, and boarding stables.	For each horse	3 00
Car and omnibus stables.	For each horse	2 00
Truck and cart stables.	For each horse	2 00
Provided, that in no case shall any stable be charged less than		5 00

The rates for stables include water for washing carriages without hose; when hose is used $3.00 additional.

HOSE.

The use of water through hose for lawns, flowers beds, washing windows and sprinkling streets, is limited to one and one-half hours between the hours of 5 and 8 A. M. and one and one-half hours between the hours of 5 and 8 P. M. Hose nozzles must not exceed 3-8 in. in diameter. The hose may be used by hand or it may be attached to a lawn sprinkler. For hose used in this manner, when supplied from the house service, the charge will be $3.00 per year. If a separate service is used the

charge will be $6.00 per year. If the use of hose is desired for a longer period, a meter must be placed on the hose connection and the water must be paid for at the rates mentioned below.

The Board reserves the right to change the above hours, or to cut off all use of water, except for domestic purposes, in case any contingency should arise requiring such a course.

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse-power..... $6 00

METERS.

Water for field irrigation, greenhouses or hot-houses, hot-beds and wash-houses must be metered at the rates mentioned below for metered water, and water may be used at all hours.

No meters will be installed for domestic purposes.

Meter Rates will be as follows:

Up to . . . . 40,000 cu. ft. per year, 15 cents per 100 cubic feet.
From 40,000 to 80,000 " " " " 13 " " " " "
From 80,000 to 1,000,000 " " " " 12 " " " " "
Over . . . 1,000,000 " " " " 10 " " " " "

The following meter rents will be collected each year in addition to the above charges:—For a 5-8 in. meter, $2.00; a $\frac{3}{4}$ in. meter, $3.00; a 1 in. meter, $4.00; a $1\frac{1}{2}$ in. meter, $8.00.

The minimum charge for metered water, including the meter rent, will be $15.00. In case more than one meter is used by a water taken the minimum charge for water will be $15.00 for each meter, including the meter rent. All water that passes through a meter will be charged for whether used or wasted. If a meter fails to register or records incorrectly the amount of water passing through it, the quantity to be charged for shall be determined by the average daily consumption shown by the meter when in order. It is suggested that

water takers read their meters occasionally to satisfy themselves whether or not they are working and that they immediately send notice of any irregularity to the Water Board.

BUILDING PURPOSES.

The minimum charge for water for building purposes is $3.00. When more than fifty casks of lime or cement are used the charge is six cents per cask of each.

ORNAMENTAL FOUNTAINS.

Ordinarily used three hours a day for a period of not more than four months a year:

For a jet of 1-16 of an inch	$3 00
" " 1-8 " "	5 00
" " 1-4 " "	8 00

To be cut off at discretion of the Superintendent.

Rebates will be allowed only during such time as the water is shut off, but no rebate will be allowed for a period less than one month. When a house is vacated the owner must notify the Water Registrar to have the water turned off. When the house is again occupied the owner is to give notice to have the water turned on. The charge for shutting off and turning on water in vacated houses is 25 cents for each operation.

SECTION 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners, and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases in their judgment the interests of the town shall require.

B. DELMONT LOCKE,
Water Registrar.

REPORT

OF THE

Superintendent of the Water Works.

To the Arlington Water Commissioners:

GENTLEMEN:—My report for the year ending Dec. 31st, 1899, is hereby respectfully submitted.

EXTENSION OF MAIN PIPE.

There have been 5297 ft. of pipe laid during the year; 5265.2 ft. of 6-in, and 31.8 ft. of 10-in. pipe. 129.8 ft. were to replace old pipe taken up, and 5135.4 ft. for the extension of mains principally on new streets. 4315.9 ft. have been connected with the high and 819.5 ft. with the low service systems, including 320 ft. of pipe laid for Wyman Bros.

The following table will show the streets where pipe has been laid, with size of pipe, and cost of same:

MEDFORD STREET.

Labor	$34 00	
81.8 ft. 6-in. pipe	27 80	
2 6-in. gates	22 00	
2 6-in. gate boxes	6 50	
2 6 x 4-in. reducers	5 00	
Lead and jute	5 00	
		$100 30

PARALLEL STREET.

Labor	$14 00	
31.8 ft. 10-in. pipe	22 50	
1 10-in. gate	21 00	
1 gate box	3 50	
1 10 x 10 x 6 x 6-in. special	9 00	
Lead and jute	4 00	
		$74 00

BROADWAY.

Labor	$7 25	
48 ft. 6-in. pipe	14 00	
5 specials	10 00	
Lead and jute	6 00	
		$37 25

(Note)—This pipe replaced cement-lined pipe.

GRAY STREET (ATWOOD AVENUE).

Labor	$227 50	
1084 ft.. 6-in. pipe	368 56	
2 5-in. hydrants	56 00	
5 6-in. gates and gate boxes	71 25	
1 6-in. regulating valve	127 50	
Lead and jute	52 50	
Specials	28 00	
		$931 31

ROBBINS ROAD AND HAWTHORNE AVENUE.

Labor, including rock excavation	$1,351 70	
3231.9 ft. 6-in. pipe	1,098 84	
6 5-in. hydrants	168 00	
6 6-in. gates and gate boxes	85 50	
Lead and jute	146 50	
Specials	36 00	
		$2,886 54

FAIRVIEW AVENUE.

Labor	$30 62	
210 ft. 6-in. pipe	71 40	
1 5-in. hydrant	28 00	
Lead and jute	10 50	
Specials	5 50	
		$146 02

LAKE STREET (WYMAN BROS.).

Labor	$16 50	
320 ft. 6-in. pipe, 9960 lbs.	120 05	
1 5-in. hydrant	28 00	
1 6-in. gate and gate box	14 50	
Lead and jute	12 50	
Special	3 85	
		$195 30

(Note)—This pipe was paid for by Wyman Bros. The hydrant is the property of the Town.

WALNUT STREET AND WALNUT COURT.

Labor	$96 25	
289.5 ft. 6-in. pipe	98 43	
1 5-in. hydrant	28 00	
1 6-in. gate and gate box	14 50	
Lead and jute	14 00	
Special	2 00	
		$253 18
Total amount expended on main pipe		$4,623 90

SERVICE PIPES.

There have been 87 services put in during the year; 52 connected with the high and 35 with the low service systems, average for each, $11.80; total cost for new services, $1,026.60.

REPAIRS ON SERVICES.

Thirty-four services have been repaired, and 4 transferred from the low to the high, and 1 from the high to the low-service systems.

HYDRANTS AND GATES.

Eleven hydrants and 16 gates have been set during the year; two old hydrants have been taken out.

Total number of hydrants in use	317
Total number of gates in use	252

The hydrants have been examined and oiled recently; any found out of order have been repaired, and all of them are in good condition.

LEAKS IN MAIN PIPE.

We have had quite a number of leaks in the old pipe. It will always be an expense to the town as long as it is in use, besides the inconvenience and annoyance to the water takers when a leak occurs. It should be replaced by iron pipe as soon as possible.

METERS.

Fifty-four meters have been put in during the year; there are now 66 in use.

SHOP.

The shop is in good repair, but as more room was required, a new shed has been built for the wagons.

THE RESERVOIR AND BROOK.

Have been kept clean; weeds pulled up and brush cut down, and fences repaired where it was found necessary to do so.

THOMAS RODEN,
Superintendent.

WATER WORKS.

TREASURER'S REPORT.

RECEIPTS.

Balance of cash on hand Dec. 31, 1898.....	$2,966 50

CHARLES H. WOODS.

Inspector of Wires.

REUBEN W. LeBARON.

Inspector of Milk and Provisions.

FRANK P. WINN.

Inspector of Animals.

LAURENCE L. PEIRCE.

REPORT OF THE SELECTMEN.

The Selectmen submit the following report for the year ending December 31, 1900. The town lines have all been perambulated as required by law.

The cars of the Lexington and Boston Street Railway began running in the spring. Tracks have been laid on Broadway by the West End Street Railway Company and cars are now being run.

A location has also been granted to said company on Medford street. Five grade crossings have been abolished. The roadway has been built under the railroad at Grove, Brattle and Forest streets; carried over the tracks at Park avenue; the crossing discontinued at Bow street, and a new street built to connect with Forest street. All this work is practically completed. The town will have to pay ten per cent of the cost.

Telephone conduits have been laid in Pleasant street, one being reserved for town wires.

On January 1st the town was given Metropolitan water on the high service system.

In accordance with a vote of the town a professional auditor was employed to audit the books of the Town Treasurer. The result was the same as given by the Town Auditors.

An eight-room, brick school building is nearly completed in the Cutter School district.

New town officers have been appointed as follows: Town Engineer, Superintendent of Wires and Superintendent of Fire Alarm. Their work has given perfect satisfaction.

An issue of bonds by the Town Treasurer, $35,000 Cutter School loan, was approved.

The town occupies the same position in the matter of taxes as the other cities and towns in the Metropolitan district. We now have assessments for water and sewers.

This year parks will be added and, if a law be passed to make the assessments for water meet the annual requirements for the interest and sinking fund, some $3,700 additional per year will have to be provided for. No money was raised by taxation for the Highway Department, the first time (so far as we know) since the town was incorporated.

Some arrangement should be made for the care of contagious diseases.

As a result of much work the poles on Mystic street have been reduced to two lines. Minor changes of poles in other locations have also been made.

One carload of vitrified brick was purchased and used in laying crosswalks. They make a fine walk, but cost more than granite.

STREET WATERING.

The streets were watered by contract at a charge to the abutters of $2\frac{1}{2}$ cents per foot. One new cart was purchased.

STREET SIGNS.

Signs have been placed on the following streets: Kensington park, Kensington road and Brantwood road (2).

STREET LIGHTS.

While the lighting has not been perfect, the service has been better than in previous years. Since the switch-board has been established in the Town Hall we know that we have received the full amount of current called for by the contract.

New lights have been placed as follows:

Lake street, 1.

Marathon street, 1.

Lewis avenue, 1.

Draper avenue, 1.

Massachusetts avenue, at Appleton street, 1.

Making a total of 168 incandescents and 98 arcs now in use and calling for an appropriation of $11,910 in 1901.

CONTRACTS FOR COAL.

The contract for coal was awarded to the Peirce and Winn Company at the following prices:

Furnace	$4 49
Egg	4 74
Stove	5 00
Honey Brook Egg	5 04
Georges Creek, Cumberland	4 55

ALMSHOUSE.

Mr. and Mrs. John B. Tay have remained in charge during the year. One woman and two children were cared for temporarily, and then sent to the State Almshouse as they were charges of the State. During the year eight persons were admitted; one has died, three sent to State Almshouse, and two have gone away. There are now seven inmates, five males and two females.

OUTSIDE POOR.

The expenditures of this department have been quite large, the increase caused mainly by the care of three additional inmates of the Insane Hospitals. For work of the departments under our supervision we refer to the detailed reports of Chief

of Police, Superintendent of Streets, Town Engineer, Superintendent of Fire Alarm, Superintendent of Wires and Chief of Fire Department.

BROADWAY.

Owing to the delay by the City of Somerville in granting a location for railway tracks in that city, we did not start work on Broadway until late in the season. Therefore the road was not in operation early enough for the town to receive the corporation tax this year.

Before any work was done on the street, and also after completion, the Board of Selectmen invited three citizens to inspect the conditions of the street relative to the abutting property.

The track and roadway have been completed, fences have been set back and raised in places.

A new stone retaining wall was built in front of the estate of Thomas Mitchell, and one was relaid in front of property of Frank Bowman. A brick underpinning was built under the front of house belonging to Mrs. Lucinda A. Ellis.

The storm drains have been completed and catch-basins built. The crushed stone used on the surface of the road was furnished by the Massachusetts Broken Stone Company, making it of even quality and of very hard stone. In the spring the loam space in the sidewalk will have to be worked over and grass seed sown.

Those portions of the roadway where the deep fills were made will probably settle somewhat and in a year or two will have to be resurfaced.

When the estimates were made on the cost of rebuilding the street, neither the extension of the bridge nor the widening of the street at Alewife Brook were considered. This additional

work has added much to the cost, but it was thought best to have it done now as the expense would be less and it would have to be done in the near future.

The City of Somerville wished to have the street and bridge built to the full width and seemed disposed to delay the work until it should be done.

Bids for doing the work by contract were asked for, and six were received. The lowest was far more than the appropriation and it was therefore deemed best to have the work done by town men and teams.

The work called for in the contract would have cost, as near as we can estimate, $15,574.44. The same work done by the town cost $13,668.69, making a saving of $1,905.75. The excess of cost above appropriation has been charged to Highways.

BOARD OF SURVEY.

In compliance with the vote passed by the town April 3rd, 1899, a grade was established on Broadway. A street from the westerly end of Gray street to the easterly end of Atwood avenue and from the westerly end of Atwood avenue to Oakland avenue has been laid out to a width of fifty feet.

Summer street, from Mystic street to Pine street, has been laid out to a width of fifty feet, and grade established.

Locke, Clark and Peirce streets, on land of W. A. Peirce, at and near the junction of Lowell street and Mass. avenue, have been laid out to a width of forty feet, and a grade established.

Thorndike, Magnolia, Lafayette and Fairmount streets, Park Boulevard and Lake avenue, on land of Thomas Tolson, at Alewife Brook, have been laid out to a width of forty feet and a grade established.

EDWIN S. FARMER,
GEORGE I. DOE,
WALTER CROSBY,
} *Selectmen.*

REPORT

OF THE

SUPERINTENDENT OF STREETS,

To the Honorable Board of Selectmen:

GENTLEMEN: I submit to you my annual report for the year ending December 31, 1900.

ACADEMY STREET.

Edgestone has been set along the side of the Town House site, and the gutters paved from Mass. avenue to Maple street. A brick crosswalk has been laid at the head of Maple street.

The street has been graded its entire length and a coat of fine crushed stone to a depth of four inches put on, being well rolled, and then covered with fine screened gravel and stone dust.

Labor and teams	$320 91
Crushed stone	415 80
Stone dust	73 80
Screened gravel	172 50
Paving, 325 sq. yds.	243 75
Steam roller	65 00
	$1,291 76

APPLETON STREET

At the junction of Mass. avenue was in a dangerous condition. The approach to the avenue being very steep and the sidewalks

not coming together at grade, caused a high bank where teams and pedestrians were liable to accident. The street has been graded to Acton street and coated with crushed stone, well rolled, and then covered with screened gravel and stone dust.

The gutter on the north side has been paved. The sidewalk has been lowered to conform with the walk on the avenue.

At the junction edgestone has been set around the circle and along the avenue for a distance of about 118 feet. On the north side of the street there has been 124 feet edgestone reset and eight feet of new at the circle.

The drain taking the surface water at the foot of Appleton street became clogged, and it was found upon examination to be filled with gravel washed from the hill (there being no catch-basin at the entrance to the pipe). Work was commenced by taking up this pipe in order to clear it, and it was found that every length along the avenue was cracked. Having been laid near the surface of the street, the heavy teams and action of the frost caused it to break. As a drain beginning at Oakland avenue to take the surface water underground to the brook had been talked of, it was decided to start this improvement with the view of extending this drain in the near future. This drain was started at a point 100 feet or more below Mass. avenue on Forest street, connecting with the old drain. From this point a twenty-four inch pipe has been laid along the west side of Forest street to the avenue, thence under the northeast sidewalk, crossing the avenue to the foot of Appleton street, covering a distance of 622 feet, with connections to the catch-basins. There have been two catch-basins built, blasted out of the solid ledge on either side of the street to take the surface water. Suitable manholes have been built at the angles for use of inspection in case the pipes get clogged. With the idea of extending this drain an open end has been left at the foot of the street.

For cost of drain see table for drains.

BARTLETT AVENUE.

The road-bed from Mass. avenue to Mr. E. L. Parker's has been graded and coated over with fine crushed stone, well rolled and covered with screened gravel and stone dust. There have been 343 feet edgestone and 6 feet circle set and 299 feet reset. On the gutters 568 sq. yds. of paving have been used. At the junction with Mass. avenue a brick crosswalk has been laid. The sidewalks in many places have been coated over with stone dust.

Labor and teams	$79	15
Crushed stone	262	40
Stone dust	21	60
Screened gravel	22	50
Steam roller	60	00
Paving, 568 sq. yrds	426	00
		$871 65

BOW STREET

At the Lowell street end has been graded for a short distance and coated with gravel. Late in the season work had been commenced near the residence of P. J. Lennen's, but cold weather setting in, the work was discontinued.

Early in the season this work should be taken up again and the street put in good condition.

Labor and teams	$136	00
Gravel	42	00
		$178 00

BROADWAY

Is at last put in good condition. I do not say in better condition than if done by contract, but it was done about $2,000 cheaper, taking in account the extra excavation and amount of material used.

Manner of Construction: After the Boston Elevated finished laying their tracks work was commenced by the town September 10th. The street was excavated to a depth of ten inches below grade, and in many places where loam was found twelve inches. A coat of rough, broken stone five inches in depth was spread over this surface and well rolled into the sand, making a solid bed for crushed stone eight inches below grade. A coat of No. 2 crushed stone was then put on, well rolled, and a second coat put on to even up the surface and to fill all low places caused by rolling. This covering well rolled brought the surface of the street near grade and then a coat of No. 2 crushed stone from the Mass. Broken Stone Co., three inches in depth, was carefully spread, giving the surface of the street a rolling grade to track and gutter. This last coat of stone was well rolled, then a light covering of screened blue gravel put on and rolled again, and then was spread with a coating of stone dust. After completion the steam roller was kept rolling the entire length one week.

The bridge at Alewife Brook has been extended to the full width of the street and a heavy granite retaining wall built from the brook on the cemetery side, a distance of 448 feet.

On the east side the wall has been raised to conform with the new grade. This work was done by contract. A three-rail, one and one-half inch iron pipe fence has been erected on these walls.

The sidewalk on the northerly side of the street the entire length and on the southerly side, from Mass. avenue to land of W. H. Allen, from the Puffer estate to Winter street, and from Marathon street to the cemetery gateway, has been finished, the remainder to subgrade. Where there was a concrete walk and the grade altered new concrete was laid. The remainder was made macadam, six feet in width with a loam space on the outside. The macadam consists of four inches of fine stone well rolled, and covered with an inch of stone dust and again rolled.

The square at the junction with Warren street has been enclosed with edgestone.

Owing to the reconstruction, the drain has had its share of attention. More pipe has been laid and several new catch-basins added. All of the old catch-basin stones have been changed to conform with the new line and grades and to the widening of the road-bed. The appropriation has been exceeded, which amount has been charged to the construction of Broadway.

By reference to the table it will be seen that the Broadway appropriation has been exceeded by $6,108.54. This amount has been charged to the general highway account.

The cost of labor and materials used on intersecting streets necessitated by the change of grade was $1,276.28.

EASTERN AVENUE.

Late in the season from near residence of Edwin Robbins to Highland avenue was covered with loose gravel. The coming season this should be rolled and covered with blue gravel.

Labor and teams	$20 00
Gravel	217 50
	$237 50

FOREST STREET

From junction of new Bow street to Mr. Wanamaker's line has been graded to a width of forty feet. The road-bed has been graveled and coated over with a light covering of fine crushed stone. In grading this portion of the street considerable ledge had to be removed. This, with ledge in front of Mr. Jardine's, was blasted and the stone carted to crusher. A retaining wall on the east side has been built from Mr. Wanamaker's line, northerly, for a distance of 325 feet. The gutters on both sides have been paved. At the junction with Mass. avenue a brick crosswalk has been laid.

Labor and teams	$1,743 26	
Crushed stone	164 70	
Gravel	114 00	
Paving, 472 sq. yds	354 00	
Retaining wall	178 75	
Use of tools and sharpening	165 00	
Steam drill and blasting material	135 00	
		$2,854 71

GROVE STREET.

This street has been regraded from Mass. avenue to Dudley street. The grade has been raised opposite Jeremiah Crowley's and lowered at the Chrome Works.

The road-bed has been covered with a coating of blue gravel. Fine gravel has been used on the sidewalks.

Labor and teams	$325 00	
Gravel	70 00	
		$395 00

HUTCHINSON ROAD (formerly called Oak street)

From Old Mystic street to just beyond William Welch's residence was badly washed by the heavy Spring rains. In many places the gutters were cut away to a depth of from three to four feet. These places were filled with small stones. The road-bed for this distance has been covered with a coat of gravel.

Labor and teams	$36 75	
Gravel	346 50	
		$383 25

JASON STREET

From Mass. avenue to Irving street was first picked over with the steam roller and the surface leveled, the low places being brought to subgrade with gravel. It was then coated over with fine crushed stone, well rolled and covered with a light coating of stone dust.

Labor and teams	$385 00	
Crushed stone	902 70	
Stone dust	98 10	
Screened gravel	31 50	
Paving,-280 sq. yds	210 00	
Steam roller	75 00	
		$1,702 30

LAKE STREET.

It has been several years since this street was coated over with crushed stone. The surface has become very rough and has required considerable patching the last season. It should be resurfaced with fine crushed stone its entire length. A brick walk has been constructed across the street at the junction with Mass. avenue.

On the south side a concrete walk has been laid from Mass. avenue to the railroad crossing. The north sidewalk from the railroad crossing to near the Belmont line has been repaired. The edge of this walk was high, which allowed the water to remain in many places. This edge has been cut down and the sidewalk coated with stone dust.

MASSACHUSETTS AVENUE.

Both sides of the avenue from Water street to Lowell street have been put in good condition by first excavating all portions of the street where there was not a suitable amount of stone for a road-bed. It was brought to subgrade by course stone. The entire street was then covered with No. 2 crushed stone to a depth of from six to eight inches, well rolled, and then coated over with screened blue gravel. This gravel was well rolled and the street surfaced with stone dust. Other sections of the avenue have required considerable patching.

Early the coming season the avenue from Water to Medford street, on both sides, should be put in good condition, and I should advise that this portion of the street be paved with vitrified brick.

From the junction of Broadway to Alewife Brook, on the east side, it should be resurfaced with crushed stone. The road-bed is becoming very rough, as it has been eight years since it was last repaired. Between Lowell street and Park avenue, on the east side, is another portion that should be attended to this year.

Owing to the change of grade by the construction of the electric road on Broadway at the junction with the avenue, it was found necessary to lay a surface drain at the head of Medford street to connect with the drain opposite Swan's Block.

A macadam walk has been built on the east side from Winter

street to Monument place. Portions of the west sidewalk have been coated with stone dust, from Wood's lane to Pond lane and from Pleasant street to the Library. The east sidewalk has had a similar coating, opposite the residence of George A. Teel and from Forest street to opposite Appleton street.

Labor and teams	$2,059 50	
Crushed stone	5,411 70	
Stone dust	562 50	
Screened gravel	340 00	
Paving, 428 sq. yds	385 20	
Steam roller	300 00	
		$9,058 90

MOUNT VERNON STREET.

This street has been put in good condition by paving the gutters their entire length. The surface has been given a good crown by a coat of blue gravel, well rolled. The north sidewalk has been graded with fine gravel and stone dust. Stone dust has been put on the walk on the south side, from the avenue to a point just beyond Edward N. Rand's.

In addition to the above, the corners of the street at the junction with Mass. avenue have been enclosed with circle stone.

Labor and teams	$239 00	
Crushed stone	63 90	
Screened gravel	357 00	
Paving, 1,415 sq. yds	1,061 25	
Steam roller	45 00	
		$1,766 15

MYSTIC STREET.

Several sections of this street between Chestnut and Old Mystic streets have been picked with the steam roller and re-

surfaced with crushed stone, well rolled, and coated over with screened blue gravel and stone dust.

Labor and teams	$138 75	
Crushed stone	549 90	
Stone dust	81 90	
Screened gravel	64 50	
Steam roller	52 50	
		$887 55

NORTH UNION STREET

For a distance of 250 feet has been graded to conform with the grade of Broadway. The road-bed has been coated with blue gravel and crushed stone, well rolled, and covered with stone dust.

Labor and teams	$109 52	
Crushed stone	70 42	
Stone dust	7 65	
Gravel	93 24	
		$280 83

OAKLAND AVENUE.

The high edges of this street from Hillside avenue to Park avenue have been removed and the street well crowned with a coat of blue gravel. The sidewalk for this distance, on the north side, was coated over with stone dust.

Labor and teams	$15 50	
Gravel	148 75	
		$164 25

PARK AVENUE.

Portions of this street should be raised in the centre with gravel and surfaced with fine crushed stone. The street has

now but little crown and the water does not readily find its way to the gutters, thus causing the surface to wash away during heavy rains.

There have been 122 sq. yds. of gutters paved in front of the residence of George H. Stevens, at a cost of one dollar per yard. Stone dust has been put on both sidewalks where needed.

PLEASANT STREET.

The concrete walk has been extended from Spring Valley to Lake street, making a continuous walk on the south side, from the centre to the Belmont line.

At Wellington street a brick crosswalk has been laid.

Edgestone has been set in front of the residence of Dr. Stickney and the Misses Cutter. At George H. Bartlett's the edgestone has been taken from the street line and reset on the curb line.

The surface of the street from Swan street to Spring Valley is in a rough condition and has required considerable patching. The street should be graded to afford better drainage for the surface water, as after heavy rain the water stands in many places.

ROBBINS ROAD.

At the upper end was badly washed, requiring 150 loads of gravel to put it in condition. The paving in many places had to be reset, caused by the water working its way beneath it.

Labor	$33 00
Gravel	280 20
Paving, 177 sq. yds	35 40
	$348 60

TUFTS STREET

Has been graded for a distance of 200 feet to conform with the grade of Broadway. A coat of fine crushed stone has been put on, well rolled, and covered with screened blue gravel and stone dust.

Labor and teams	$22	44
Crushed stone	110	47
Stone dust	9	68
Screened gravel	13	36
	$155	95

WARREN STREET.

The grade has been lowered between River street and Broadway to meet that of the latter. This section was excavated eight inches below the finished grade and was filled nearly to grade with coarse blue gravel. This was spread with fine crushed stone, well rolled, and then coated over with fine blue gravel and stone dust.

Labor and teams	$156	30
Crushed stone	135	67
Stone dust	24	98
Gravel	150	50
	$467	45

WINTER STREET.

This street for a distance of 120 feet at the Broadway end has been coated over with crushed stone and brought to the required grade. A covering of screened blue gravel was put on, well rolled, and surfaced with stone dust.

Circle stone has been set at the corners on both sides of the street.

Labor and teams	$5 60	
Crushed stone	45 00	
Stone dust	8 10	
Screened gravel	9 80	
		$68 50

WYMAN STREET.

Upon taking levels it was found that the grade was considerably lower than the accepted grade of this street. The street has been raised to nearly the accepted grade, conforming to the new grade on Broadway. 425 feet of this street has been covered with fine crushed stone. This stone was well rolled and then a coating of screened blue gravel and stone dust put on and rolled again.

The sidewalks also were raised to grade and covered with stone dust.

Labor and teams	$78 62	
Crushed stone	163 35	
Stone dust	37 58	
Screened gravel	24 00	
		$303 55

CLEANING STREETS AND CATCH-BASINS.

There has been considerable attention paid to the cleaning of streets and catch-basins, necessitating quite an expense. 1,409 loads of scrapings have been teamed to the Park and the balance has been used to fill low places back of sidewalks.

STONE CRUSHER.

As the crusher was put in good repair last year, it will require but a small outlay this next season.

The several thousand tons of stone that have been carried over at the yard from previous years have been crushed and used on the streets, leaving but a few tons for crushing.

STEAM-ROLLER.

The roller has been in constant use from early in the spring to the time the ground commenced to freeze this fall.

Steps have been taken toward the purchase of new driving wheels, as they are considerably worn, one of them being cracked, and it was feared that it would give out before the end of the season.

OFFAL AND ASHES

Have been removed the same as last year. The first offal cart which was purchased will require a new body, as the old one has rusted through in many places.

WATERING STREETS.

This last year all the watering carts were let out by contract. This was done at the uniform price of $450 for the season. There was one two-horse watering cart purchased from the Studebaker Manufacturing Co., which has given perfect satisfaction. The sprinkler on one of the carts should be changed, and I should advise that it be replaced by one after the Studebaker type.

TEAMS AND TOOLS.

There has been purchased the last season one pair of horses, making the number of horses now in use by the Highway and Health Departments, sixteen. One double road cart has been added and also a two-horse watering cart, otherwise the number of teams is the same as last year. The carts and tools are receiving needed repairs to put them in good condition for the next season's work.

Respectfully submitted,

S. E. KIMBALL,
Superintendent of Streets.

The following tables show the amounts expended on sidewalks and surface drains the past year:

TREASURER'S REPORT.

EXPENDITURES.

HIGHWAYS.

Paid S. E. Kimball, Supt., 11 mos.	$1,375	00
R. C. Kimball, Acting Supt. .	75	00

Amount of property reported stolen	$539 62
Amount of property recovered	$312 62
Amount of property reported lost	$27 00
Amount of property found	$135 00

COURT RECORD.

Number of days in attendance at Third District Court	233
Number of persons paying fines	132
Committed for non-payment of fines	39
Discharged	12
Placed on file	9
Probation	4
State Farm	3
Insane Hospital	3
To grand jury	6
Turned over to other officers	5
Lyman School	3

Reformatory	7
House of Correction	6
Cases continued	3
Total	232

POLICE ORGANIZATION.

ALONZO S. HARRIMAN, *Chief.*

Patrolmen.

GARRITT BARRY,	GARRET J. CODY,
JOHN DUFFY,	DANIEL M. HOOLEY,
ANDREW IRWIN,	FRED E. SMITH,
JAMES E. WHITTEN,	CHARLES H. WOODS.

The chief and two patrolmen are on duty in the day time; during the night six patrolmen are on duty.

EXPENDITURES.

Diaries for department	$13 65
Carriage hire	12 50
Feeding prisoners	2 75

Ice (C. W. Ilsley)	6 75
Policemen, services of	7,516 75
Printing	9 50
Salary of chief of police	1,200 00
Special police	273 28
Supplies for department	24 00
Travelling expenses	12 00
Total	$9,210 42
Appropriation and fines	$9,050 00
Receipts	377 21
Balance unexpended	216 79

TELEPHONE BOXES.

During the past year the old wooden boxes that were in use for telephone service have been removed, and new iron boxes, number and marked "Police Telegraph" have taken the place of the old. One extra box has been placed on Warren street, opposite Park street,—making four (4), all connected by private wire with the Police Station: one at the corner of Park avenue and Massachusetts avenue, one at Grove street and Massachusetts avenue, one at Warren and Park streets, and one at the corner of Lake street and Massachusetts avenue. All are giving good service.

NO-LICENSE LAW.

Each year under the no-license law the so-called kitchen barrooms grow less in number, and the year of 1900 is no exception. Each officer is held responsible for his route; consequently the illegal sale of liquor has been minimized.

RECOMMENDATIONS.

I would respectfully recommend that an increase of one more man be made to the force, in order that an officer should be on duty in the Station at all hours of the night. As it is, the officer who has charge of the Station has what is known as the Centre Route, from Water street to the Monument, the business part of the Town,—stores, banks, etc.,—one of the most important routes. There are times during the night when it is necessary for him to be away from the Station from twenty minutes to a half hour, trying the store doors, looking out for fires, etc. During that time, if any important message comes over the telephone, district or police, there would be no one to take it, and a delay of fifteen or twenty minutes would be of

great importance in case of fire, burglary, or accidents. I earnestly hope you will consider this recommendation.

As in my last year's report, I still recommend that some kind of a wagon be procured, to be used as a patrol-wagon and for the general use of this department.

CONDUCT AND DISCIPLINE.

On the whole, it gives me pleasure to report my confidence in the present force. The officers take an interest in their work, and all are anxious to be efficient in their line of duty. I have accordingly deemed it my duty to insist upon the maintenance of proper discipline at all times, and in carrying out this rule I have tried to act with impartiality and show no favors to any member of the force.

I would thank the members of the department for the prompt and efficient manner in which they have discharged their several duties.

CONCLUSION.

In concluding this report, I desire to thank your Honorable Board and all others who have so kindly assisted me in the performance of my duties.

Respectfully submitted,

ALONZO S. HARRIMAN,
Chief of Police.

ANNUAL REPORT OF THE CHIEF ENGINEER OF THE FIRE DEPARTMENT.

To the Honorable Board of Selectmen:

GENTLEMEN—I herewith submit my annual report for the year ending December 31st, 1900.

FIRES AND ALARMS.

The department has answered sixty-five alarms, forty-five bell, and twenty still or telephone calls. This is the largest number of fires the department has had since its organization.

The fires were as follows:—

Date, 1900.	Box.		Value of Building.	Insurance.	Value of Contents.	Insurance.	Loss on Building.	Loss of Contents.
Jan. 4	23	Jno. Lyons, Rubbish-pile.....

STILL ALARMS.

Date, 1900.	Box.		Value of Building.	Insurance.	Value of Contents.	Insurance.	Loss on Building.	Loss of Contents.
Jan. 24	S. A.	Patrick Mead						
Mar. 16	S. A.	House owned by Town	$3,000	$1,500	$800	$700		
Apr. 8	S. A.	Crescent Hill Woods						
Apr. 10	S. A.	Lamp explosion	4,000	4,000			4	
July 4	S. A.	Mrs. E A. Peck						
July 10	S. A.	Peirce & Winn, coal yard						
July 11	S. A.	Crescent Hill						
July 22	S. A.	Crescent Hill						
July 23	S. A.	David Irwin, (wood)						
Aug. 27	S. A.	J. P. Squire, Winter St						
Aug. 29	S. A.	J. Fermoyle						
Sept. 15	S. A.	Grey St., (grass)						
Sept 15	S. A.	Off Forest St						
Nov. 14	S. A.	H. Lewis						
Nov. 17	S. A.	Dump, Chestnut St						
Dec. 10	S. A.	C. Barton Whittemore						
Dec. 22	S. A.	Cliff St						
Dec. 25	S. A.	Oakland St						
Dec. 26	S. A.	Wyman Bros., (hay)						

The most serious loss, which I am very sorry to mention, was the Baptist church. The remainder of fires have been of small loss.

MEMBERSHIP.

The membership of the department has been increased by one permanent man. Mr. A. F. Brooks resigned as driver of Hose 3 last April, having served the town faithfully in that position for 15 years. Mr. G. W. Corbett was appointed in his place. Mr. R. L. Austin was appointed spare driver in May, and resigned in December. The vacancy was filled by J. Herbert Harwood. The call men are of the same number as in my last report.

APPARATUS.

Hose 2 has been repaired with a coat of varnish, nothing having been done to the other pieces of apparatus.

BUILDINGS.

Hose 3 House has had no repairs. Hose 2 House has had extensive repairs; has been connected with the sewer, has new stall floors, and has been properly ventilated. Hose 1 House has been repaired also. This latter house is in very bad condition and will be an expense every year. Hose 4 Building remains in the same condition as in my last report, nothing having been expended in that direction.

HOSE.

We have about 5,000 feet of hose. I think it is important that some hose be purchased this year. We have not been able to purchase any hose in the past two years.

HORSES.

The department has ten horses, a spare horse, and one which is sick at the present time. The pair of horses purchased for the chemical last spring have not proved satisfactory. One of them is used up at present, and I do not think is worth a dollar. It has been our misfortune to have a lot of sickness with our horses this year, the veterinary services being about $125. The horses have consumed 1,007 bushels of grain, 43,848 pounds of hay, and 4,441 pounds of straw, making a total cost of $826.56, averaging a horse per week, $1.57.

FIRE ALARM.

The fire alarm was placed in hands of superintendent of wires last April. The details of the same you will find in his report.

RECOMMENDATIONS.

I would recommend that the Board of Engineers be invested with the power to appoint the captains of each company, with

your approval. Also that the committee on the Fire Department look into the subject of pay of the permanent men. The pay now is smaller than of any permanent men in this vicinity. To have and keep good men, they should receive the same pay as the men in the adjoining towns of this size.

I would further recommend, that a pole for two horses be placed on Hose 1, also that some exercise wagons be procured for Hose 2 and 3. New front doors should be placed on Hose 3 House. In case of heavy fire, an Eastman Deluge set would be of great advantage.

APPROPRIATIONS.

To meet the expenses of the ensuing year, I would recommend the sum of $9,500.

CONCLUSION.

In conclusion, I desire to thank your honorable Board for the courteous and gentlemanly manner in which you have received all matters pertaining to the Fire Department. To my associate engineers, I express my sincere thanks. To the captains and members, accept my thanks for the prompt response to duty and efficient service.

Respectfully submitted

CHARLES GOTT,

Chief Fire Department.

REPORT

OF THE

SCHOOL COMMITTEE

FOR THE YEAR ENDING DEC. 31, 1900.

To the Town of Arlington:

The School Committee make the following report for the year ending December 31st, 1900.

The general school classification of the schools is now and for several years has been completely laid out according to established methods and ideas,—a High School with a four years' course, the change from three to four years having been made in 1894-5,—and four Grammar Schools, each comprising nine grades. The ninth grade pupils from all parts of the town have, however, been taught in the High School building since its erection in 1894. Though in theory they are no part of the High School, they are perhaps practically so, inasmuch as they are under the control of the principal of that school and pursue their studies after the methods of the school. Possibly it may be found that the different Grammar schools can and will accomplish in eight years all that was formerly done in nine years when the ninth grade pupils were in the Grammar school buildings. In that event it would seem advisable to make the ninth grade the first grade in the High school. It is to be noted that the conveniences of public travel are such that no very great hardship arises under the present arrangement.

The estimated value of the school properties appearing on the books of the town are as follows: High Schoolhouse, land and buildings, $72,310.95; Russell Schoolhouse, land and furniture, $40,000.00; Crosby Schoolhouse, land and buildings, $40,-

000.00; New Locke Schoolhouse, land and furniture, $33,-700.00. The estimated cost of the New Cutter Schoolhouse, including furniture and cost of grading, is about $42,000.00, making a total of $228,010.95.

It would seem that in the near future no other school building would be required, with a possible exception of a building to accommodate that portion of the centre of the town lying to the southwest of the railroad. The centre of the town is growing rapidly and soon something will have to be done. It is believed, however, that the true solution of the problem will be found in a 3—or at most a 4—room building for the accommodation of the younger pupils only, as the distance to the Russell School from all parts of the district is not great, and at 9 or 10 years of age a child may well be considered capable of avoiding all the dangers incident to crossing electric and steam railways and arising from the congested travel between Pleasant and Medford streets. In all other parts of the town where relief shall be found necessary from overcrowding, or on account of distance, buildings of not exceeding four rooms will be found adequate.

The following are the various school funds: Nathan Pratt Fund—The terms of the Nathan Pratt bequest are found in the report of the Committee for the year 1898. This bequest was received by the town in 1875, but did not become available until 1894. The principal of the fund remains as originally created, namely, $10,000.00. At the end of 1893 the accumulated income was $12,475.08. Beginning with the year 1894 the following sums have been paid out of the income: In 1894, $2,-418.26; in 1895, 1,134.03; in 1896, $318.24; in 1897, $732.26; in 1898, $227.90; in 1899, $161.25; and in 1900, $498.48. The balance of accumulated at the end of 1900 is $13,230.88.

Martha M. W. Russell Fund—This fund was received in the

year 1892. The amount then paid the town was $5,327.86. The amount of the principal appearing on the town books is $5,403.75. The income of this is now all expended annually.

William Cutter Fund—The principal of this fund appears on the books of the town to be $5,354.00. At the end of 1893 the accumulated income was $2,634.71. From the then total and subsequent income, various sums have been expended year by year, the largest expenditure in any one year being in 1894, namely, $2,023.67 for the manual training department in the High School. The balance of income at the end of 1900 is $170.12.

E. Nelson Blake Junior Memorial Fund—This fund consists of $2,500.00, and was accepted by the town by a vote passed March 18th, 1895. It is designed as a perpetual memorial of the late son of the donor of the fund, Mr. E. Nelson Blake of this town, for the encouragement of mental and moral progress among the scholars of the High School. The fund is to be held by the trustees of the Pratt Fund unless and until the town shall appoint other agents or trustees to hold it. The income is to be expended each year for books of good literature, substantially bound and suitably bound and suitably inscribed, "to be given to the scholars, or both sexes, of the graduating class of the High School, who shall satisfy all the following conditions,—

First: Such scholars as shall have completed the four years' course, or such course as may hereafter be substituted as equivalent thereto so as to be entitled to a diploma.

Second: He shall not have been guilty of any serious breach of discipline while a member of the school, and shall not have exerted an injurious influence upon others, either in school or elsewhere.

Third: He shall have shown a decided interest in his studies while a member of the school, and a desire to improve the opportunities there afforded him.

Fourth: His behavior in school and elsewhere shall have been commendable as showing uprightness of character and a spirit of kindness and courtesy.

Any scholar who has failed to satisfy all the foregoing conditions, who has nevertheless shown marked and long-continued improvement and desire for improvement in studies and conduct, may be awarded a book.

The High School sub-committee of the School Committee shall decide after consultation with the principal and assistant teachers, to whom books shall be awarded." If in any year the School Committee should deem it inadvisable to expend the whole income of said fund the remainder may be added to the income of the next or any subsequent year, and then be expended for the aforesaid purposes. The balance of income at the end of 1900 is $179.19.

The Samuel C. Buckman gift of five hundred dollars for the purchase of scientific or reference books and pictures and articles of ornament for the High School remains in part unexpended. $103.00 were expended for reference books in 1898. During the past year $290.43 have been expended for pictures and busts, which are now all properly set up, and add very materially to the appearance of the rooms. Every picture and ornament is marked with a plate inscribed, "Gift of Samuel C. Buckman." The balance of the fund will probably be used for further ornamentation.

The High School courses of study have been for some time complete. Recently an attempt has been made to specify in a somewhat comprehensive manner the particular topics, subjects or work in each year and term under the name of each study. The delay in printing the course has been occasioned by the length of time required in getting the topical subdivisions or explanations. It is sometime alleged that the High School work is

based upon the requirements of college entrance examinations. The main object of the High School should be to give a good all-round course without much reference to what may be beyond for particular pupils in the way of college work. If either class is to be subordinated to the other in the establishment of courses of study it must be the college pupils. The course should be prepared for the general pupil, giving him what may be called a good academic course, the college pupil taking the additional work required of him as so much extra work, his extra work when needed being taken as equivalents of whatever he may omit in the general or academic course. Mention was made at the last graduation of a possible relief for over-pressure by reducing the number of prepared recitation periods per week. This relief has not yet been made. The question of a reduction is well worthy of consideration by all persons interested. The present number of required prepared-recitation periods is 16 for the first year and 17 for the other three years. Drawing is a required unprepared-recitation period the first vear. Singing is unprepared and required work during the first 20 minutes of each day throughout the course. College students in order to complete their work in four years, the time now allowed, must take a larger number of prepared-recitation periods during the 2d, 3d and 4th years. As this extra work is a matter of their own choosing they cannot find fault with the amount of the work, except to say that they should have a five instead of four years' course. If it is found that eight years can accomplish all the important work of the customary nine grades of Grammar School, it may then be thought best to have the High School, in its general or academic work, but not in college work, comprise only four years inclusive of the ninth grade pupils. This would make twelve years of school work instead of thirteen, and allow the child entering school at five to graduate from the High School at seventeen instead of eighteen, as at present.

Beginning with 1891 it has been the practice to carry over three weeks of the teachers' salaries into the following year. Each appropriation has taken a burden from the preceding year and transmitted one to the next. It would be better if teachers were fully paid to the end of the calendar or fiscal year. This year one of the three weeks has been paid for with the assistance of $150.00 taken from the accumulated income of the Cutter fund. The sum of $1,434.50 is required to adjust the matter fully. The committee recommend that a special appropriation be made for this purpose at the coming annual meeting.

The salaries account this year shows a payment to teachers for forty-one weeks. The salary of the superintendent and principal of the Russell School is now fixed at $2,500.00, but he performs without charge the duties of secretary of the committee. The compensation of a secretary has been heretofore $200.00. The salaries of Miss Lillian T. Wilkins and Miss Laura M. Sylvester, teachers in the ninth grade, have been increased $50.00, to $650.00. The salaries of Miss Lena H. Abbott, principal's assistant, and Miss Vina B. Rogers, both in the Russell School, have been increased $50.00 each, to $600.00. The return of Miss Blanche E. Heard to her special work has permitted Miss Sara N. Phelps to go back to her grade work in the Locke School. Miss Eulalie Herald has been detailed to supply the vacancy in the Crosby School, caused by a year's leave of absence granted to Miss Evelyn Potter. Miss Alice B. Hicock has been granted leave of absence for one year, and her place is being satisfactorily filled by Miss Bertha M. Beecher. Miss Mary J. Mayo, a teacher in the 6th grade in the Russell School, resigned at the end of the fall term. Her place is temporarily filled by Mrs. Mary Nutter of Arlington, a teacher of large experience.

The Robbins Spring House was first used for school purposes in October, 1897. It will be abandoned upon the completion of the new Cutter School building, early in the year 1901. The

saving in rent of the Spring house will about cover the increased expenses for janitor's services and coal for the new building.

Since the first day of August, 1884, the town has been required to furnish free text-books and supplies. The various sums expended for this purpose are as follows: In the year 1884, $1,912.49; in 1885, $1,605.68; in 1886, $1,586.58; in 1887, $1,458.26; in 1888, $1,471.88; in 1889, $1,663.58; in 1890, $1,356.52; in 1891, $1,209.11; in 1892, $1,511.43; in 1893, $2,097.57; in 1894, $2,743.00; in 1895, $2,909.78; in 1896, $2,465.62; in 1897, $2,622.81; in 1898, $2,242.62; in 1899, $2,411.31; and in 1900, $2,242.37. The average per year is $1,971.26.

The Manual Training Department cost at its inception $2,023.67. This was paid out of the Cutter fund income. The average yearly cost of the departments appears to be about $250.00. This yearly cost is paid sometimes in part out of the Pratt fund income.

Schools below the High School must be kept thirty-two weeks, and the High School must be kept forty weeks, inclusive of vacations. It has been suggested that thirty-eight or thirty-nine weeks would be a sufficient length for grades below the High School. This would give a later period for opening school in the fall without carrying the school work into the hot part of June. In general, if the year begins with the day following Labor day it will end about a week before the end of June, and if it begins the Monday following Labor day it will end about the end of June. If the school year is to be shortened it must be done by vote of the town. It would be proper for the town to take what action it deems best as to the time of beginning the school year, whether it shortened the year or not.

During the year 1900 the State passed a compulsory school-superintendence law, to take effect July 1st, 1902.

The committee have voted that an adequate appropriation

should be made by the town to grade the Crosby grounds, concrete the same where advisable near the buildings, and to construct blind wells where required.

During the past year the danger that might have come to the pupils of one school, the Russell, through the presence of numerous pupils in the district who had been exposed to a malignant disease, caused the Board of Health properly to close the school from December 7th to December 17th. During this period the Board of Health thoroughly disinfected the building and also caused medical inspection to be had in all the other schools. The inspection continues. In other communities daily medical inspection is required. It is possible that the time has come with us when such inspection must be made continuous. The inspection is a wise saefguard, and will undoubtedly prevent almost wholly the closing of schools.

The past two and a half years have added most materially to the efficiency of all our schools. Their general condition is now such that the superintendent, assisted as he is, by competent principals, can and does attend to a great deal of work heretofore attended to by the committee. The superintendency and service of Mr. Sutcliffe are very satisfactory. A sub-committee recently appointed stated in part in their report to the full Board, that in connection with their work they had taken occasion to ascertain the condition of the Russell School as a whole by personal inspection of each room and otherwise, and that they took pleasure in calling the attention of the committee to the wholesome satisfaction which every person must feel who visits the school, that under Mr. Sutcliffe's management a most remarkable transformation had taken place, and that there existed a zeal, spirit, interest and purpose in every way admirable on the part of the teachers and pupils. The Board adds that the conditions which make for success in the Russell School exist to a like extent in each of the other schools. Our school affairs

are therefore in such shape that whatever is new, or wise, or an improvement on the past, in the internal working, mechanism, arrangement and methods of school work, to give the mind discipline together with due knowledge of a useful and practical or life-serving character may be accomplished. There are still open questions: What shall the true courses of study be and what the arrangement of studies? What shall be the scope and extent of each study, how much shall be learned and what matters shall be only read, or discussed orally in the class-room? What shall the child do at home, its extent and kind, and at what age such work shall begin; what recitations require prepared work; what the length of recitation periods, and what the total time the pupil shall expend in recitation work each day; what shall be the length of the time set apart each day for individual work, study and effort, outside of recitation periods, that a more independent sturdiness of mental action may be acquired; how far shall the pupil do his own work and not have the teacher do it for him; how far school requirements and methods shall be reformed so that the knowledge of the child shall at all times be his to evoke and use as occasion calls; whether certain "frills" cannot be cut off; whether it is not better to have fewer subjects, and if all things must be taught, whether the essentials cannot be taught more and the non-essentials less; whether classes cannot be subdivided so as to allow the utmost individual progress and allow each to acquire what he does acquire in a masterful way; whether any of our school courses are too difficult and cause too much strain for the period of life in which they are considered; whether the college course shall not have a length of five years instead of four years, and what shall a true business course be; what its length, two or four years, and is the child qualified on entering the High School to take up immediately a short business course with much profit to himself.

WILLIAM H. H. TUTTLE,
Chairman.

STATISTICS.

The State now, for the purpose of its tabulations, considers the school year as contained between the months of September and June.

The following table has been prepared for the year beginning September, 1899, and ending in June, 1900. The table indicates for that actual year: pupils enrolled, 1,452; average membership, 1,337; average daily attendance, 1,242.2.

At the end of the year, December 21, 1900, there were 1,438 pupils in all the schools, divided as follows:—

High School, 123; Grade IX, 85, making 208 in the High School building. A year ago it was 223.

Russell School, 518. A year ago it was 490.

Crosby School, 254. A year ago it was 280.

Cutter School, 206. A year ago it was 193.

Locke School, 252. A year ago it was 210.

SCHOOL STATISTICS, FROM SEPT. 1, 1899, TO JUNE 27, 1900.

REPORT

OF THE

BOARD OF HEALTH.

During the past year there have been 155 cases of contagious diseases reported to the Board of Health. Of this number, 57 cases were measles, 56 diphtheria, 33 scarlet fever, and 9 typhoid fever.

This number is unusually large for Arlington, which for several years has been singularly free from contagious diseases. Each disease above named has been characterized by cases of an unusually severe type. In measles there has been a large percentage of complications, viz.: broncho-pneumonia and abscess of the middle ear. In diphtheria, while the mortality was only 6 per cent (in marked contrast to that of 45 per cent before the days of antitoxine), the number of serious cases was large. Scarlet fever also was extremely severe. Twenty-one families were affected with the latter disease, and forty families with diphtheria. These families were widely scattered and not supplied by the same milk-man. Occasionally there is a year when contagious diseases seem to be widely epidemic. Such a year has been the past, for not only has Boston been unusually affected, but nearly every suburb within miles of this centre. It has been suggested that one cause of the prevalence of these diseases in Arlington is the large area of fertilized ground in town, but many of the neighboring towns and cities have suffered much more than ours, and yet their amount of fertilized ground consists only of their public gardens and private flower-beds.

It has been impossible to attribute the past epidemics to any local cause.

The sanitary conditions of the town were never so good as during the past year. Sewers have been extended, many cesspools abandoned, and all unsanitary conditions improved, if not perfected. Antitoxine has been very freely used in the treatment of all diphtheria cases, and with the most gratifying results. Only three cases have died, and one of these was practically beyond help when medical aid was first summoned. Paralysis and kidney troubles following diphtheria are less frequent now than before antitoxine was discovered, while the mortality has fallen from 45 per cent to 9 per cent. Still there are some people to be found who object to its use, as they object to vaccination.

In all cases of contagious disease the public ought to be governed by rules made for the limitations of such diseases, based on the scientific investigations of the best medical minds of the day.

It is unfortunate for the community at large that these rules are so often ignored! The hardship of being quarantined for weeks, until two negative cultures have been obtained, is indeed trying; but if scientific bacteriological investigations are able to determine when a case *is* diphtheria, it is able to determine just as truly when it is *not*. Hence so long as the bacilli remain the disease *may* be contagious and quarantine must be continued for the safety of the public.

It must be remembered that contagious diseases are not equally contagious to all. The physical condition of one person may be such that at the time of his exposure he fails to become infected, while another person may at the same time become infected readily. There is no means of knowing who is susceptible and who is not, therefore every precaution must be taken to limit exposures.

Co-operating with the school board a medical inspector of schools has been appointed, whose duty it is to daily inspect

each school and temporarily suspend any suspects of contagions disease.

During the past year there has been considerable discussion regarding the keeping of swine within the limits of the Town. The Board has carefully considered all complaints in relation to this subject, making personal inspections of all places where such animals are kept, and have required a strict compliance with the Town by-laws. At the request of this Board, Dr. Abbott, the Secretary of the State Board of Health, came to Arlington in the latter part of November and, in company with the members of the local Board, visited those places in the Town where the largest number of swine are kept. The following letter to the Chairman of the local Board will give the opinion of the highest authority in the State upon this matter:

BOSTON, December 7, 1900.

Mr. E. S. Fessenden, Chairman, Board of Health, Arlington, Mass.

Dear Sir:—In regard to the matter of keeping swine within the limits of your Town, after visiting the place and seeing the existing conditions, it seems to me that your Board might reasonably make a regulation prohibiting the keeping of such animals within the Town limits. Arlington is within the metropolitan district, the population is rapidly growing, and becoming more densely settled every year, and some such regulation would seem to be necessary for the protection of the inhabitants from a serious nuisance. This is especially the case in all instances where city swill is fed to such animals. If this is not practicable, a municipal regulation limiting the number of such animals might be made.

Yours respectfully,

SAMUEL W. ABBOTT,

Secretary.

At certain times of the year large quantities of manure are brought into the Town by the railroad and by teams, for the use of our market gardeners. It is an important factor in the carrying on of the largest industry in this community. By a special regulation passed early in the fall, all vehicles conveying this material through the streets of the Town are required to cover the same with canvas. So far there has been cordial co-operation with the Board, on the part of our market gardeners, to reduce as much as possible the disagreeable features attending the handling and use of this material.

We desire to call attention to plans proposed by the city engineer of Cambridge for draining and reclaiming the large area of wet lands extending from Concord avenue, along the banks of Alewife brook to Mystic river. The expense of carrying out the same should be largely borne by the city of Cambridge, but the benefits to Belmont and Arlington would be very great.

The usual amount of work has been done upon Spy pond, the present condition of which is good.

PLUMBING INSPECTIONS.

During the year nineteen hundred, one hundred and thirteen applications for plumbing permits were placed on file and written permits therefor duly issued. Twenty-two of said permits being for plumbing in new buildings.

DEATHS REGISTERED DURING THE YEAR ENDING DEC. 31, 1900.

REPORT

OF THE

Trustees of the Robbins Library

To the Town of Arlington:

The Trustees of the Robbins Library submit their annual report:

The reclassifying of the Library, which was begun in 1892, together with the recataloguing which was completed by the publication of a Fiction List in 1898 and a Non-Fiction List in 1899, made possible the opening of the stack to the public, a result long desired and one which in our last report we said we hoped soon to accomplish. It required, however, the separation of the juvenile books from the rest of the Library and the establishment of a room to which the children would have easy access. Sufficient space for this purpose was obtained by removing part of the stack and fitting it with shelves and tables, thus leaving plenty of room in the aisles below for the use of adults. The patrons of the Library showed their appreciation of these improved facilities by repairing at once to the shelves, examining their contents, and selecting their own books, which were charged by the attendants as before, while the children flocked to their room in large numbers. The children's room was opened on the 24th of July, and the public admitted to the stack September 11th. To these changes must be credited a marked increase in the number of books issued, 51,069 for 1900, as against 47,815 in

1899 and 46,758 in 1898. The children have drawn 6,725 books since July, in addition to the constant use of their room for the examination of books, magazines, etc.

We have continued to give exhibitions of paintings and photographs in addition to the eight reported last year.

9. Photographs of Newfoundland, February, 1900.

10. Photographs of the Alps. Stella collection No. 2, March and April, 1900.

11. Photographs of Florence No. 2, May, 1900.

12. Photographs of Japan, September, 1900.

13. Photographs of Perugia, November and December. 1900.

Mr. Winfield Robbins has put us increasingly in his debt by the gift of many books and pictures. Mrs. S. C. Bushnell presented a beautiful Statue of Nydia, the blind girl of Pompeii.

Mr. Henry Dexter, of New York, son of our first Librarian, and a generous benefactor of the Library, has presented a valuable Encyclopedia of Contemporary Biography in 2 vols. Mr. Edwin S. Farmer has given us a handsome 10 vol. edition of the Messages and Papers of the Presidents from 1789 to 1897.

The editors of the "Advocate" and "Enterprise" continue to send to us files of their papers, while several novels have been presented by a neighborhood book club of Maple and Pleasant streets. We have received also from Mr. J. Howell Crosby two souvenir volumes of Massachusetts Legislators.

The great difficulty under which the Library labors is lack of funds for the purchase of books, only a small fraction of our income being available for this purpose in view of the necessary expenses of attendance, heating, lighting and repairs. Only what is left when all other charges have been met can be applied to the purchase of books, and this amount is still further diminished by the cost of binding books and magazines. We are sadly deficient in books of reference, as well as in standard and contemporaneous literature. A larger income is greatly needed.

In the appended statement will be found the statistics for 1900, a list of periodicals now taken and a statement of the hours during which the Library and reading-room are open.

Respectfully submitted,

SAMUEL C. BUSHNELL,
E. NELSON BLAKE,
FRANK W. HODGDON,
JOSEPH C. HOLMES,
JAMES P. PARMENTER,
MATTHEW ROWE,
Trustees.

LIBRARIAN'S STATEMENT.

LIBRARY HOURS.

SUNDAY.—*Reading Room*, 2.30 to 5.30 P.M.

MONDAY, TUESDAY, THURSDAY, AND FRIDAY.—*Reading Room*, 10 to 12 A.M., 1 to 6 and 7 to 9 P.M. *Book Room*, 1 to 6 P.M. *Children's Room*, 1 to 6 P.M.

WEDNESDAY AND SATURDAY.—*Reading Room*, 10 to 12 A.M., and 1 to 9 P.M. *Book Room*, 1 to 9 P.M. *Children's Room*, 1 to 6 P.M.

Library is *closed* on Washington's Birthday, Patriots' Day, Memorial Day, Seventeenth of June, Fourth of July, Labor Day, Thanksgiving, and Christmas.

LIBRARY HOURS, ARLINGTON HEIGHTS READING ROOM.

TUESDAY AND SATURDAY.—1.30 to 6, 7 to 9 P.M.

THURSDAY.—3 to 6, 7 to 9 P.M.

Books left at the Reading Room on *Tuesday* and *Saturday* between the hours of 1.30 and 3.30 P.M. will be exchanged, and books will be ready for delivery from 7 to 9 P.M. of the same day.

Books not left at the Reading Room on or before 3.30 P.M. on the days when due will be subject to fine.

REPORT

OF

ARLINGTON PARK COMMISSIONERS

FOR 1900.

Early in March the Commission concurred with the Metropolitan Park Commission in taking for park purposes a strip of land bordering on the Mystic river, between Medford street and the Somerville line, within the limits of Arlington, as shown on plan of taking No. 262 of the Metropolitan Park Commission.

The Commission for the past three years has employed a man at Menotomy Rocks Park during the summer months from 10 o'clock in the morning until dark, to be on hand in case of need for the protection of women and children, to remove rubbish and fallen branches, and generally to keep the premises in good order. The number of people visiting this park has steadily increased from the time the park was established.

The only construction work done by the Commission during the year has been on the land taken for a park near Mount Pleasant cemetery. In connection with the abolition of the grade crossings at Grove and Brattle streets, we were able to secure a large amount of filling material for the cost of hauling, amounting approximately to 8,000 double loads, which, together with what has been deposited by the different town departments, has completely filled the section of this park in the rear of Chestnut street, and between Cemetery and Medford streets, to a height of about two feet above what has been hereto-

fore stagnant water or mud. The roadway has been extended back of the cemetery to the brook, and surplus material from the new development of Mount Pleasant cemetery is being used to still further fill this swamp land.

Respectfully submitted,

J. Q. A. Brackett,
S. Frederick Hicks,
Frank W. Hodgdon,

Arlington Park Commission.

Report of Tree Warden for 1900.

To the Citizens of the Town of Arlington:

I have the honor herewith to submit the first annual report as Tree Warden for the year ending December 31, 1900.

In accepting this office, which is a new one created in accordance with the Acts of 1899, Chapter 330, I did so with little knowledge of what the duties of a tree warden were. At the annual Town meeting, held in March, an appropriation of $300 was made for the trimming of trees. As considerable trimming has been done in the past few years, an inspection was made of trees throughout the Town, in regard to continuing this work. After making this inspection the conclusion reached was that the appropriation made could be easily expended in removing the dead wood from the trees, over the streets and sidewalks which were dangerous to travel.

WORK DONE.

A general trimming was given the trees on Academy and Medford streets. The large elm on the corner of Massachusetts avenue and Medford street, and one near Town Hall, were thoroughly trimmed. On Massachusetts avenue near Forest street, and on Vine and Appleton streets considerable trimming was done on the large elms at these places. The trees on Vine street, between Appleton street and Park avenue, needed attention very much on account of a large amount of dead wood in the same.

The following is a list of streets on which trees were trimmed, dead wood removed, patches put on, etc.:

Work Where Done.	Trees Trimmed. Dead Wood Removed.	Branches Cut Off.	Tin and Burlap Patches Put on.	Electric Brackets and Cross Arms Removed	Trees Cut Down.
Academy Street.....	36	459	9	2	....
Appleton Street.....	6	116	....	....	....
Beacon Street.....	1	10	....	....	....
Broadway Street.....	4	46	....	....	5

Westminster Avenue....	4	5	..	....	....
Winter Street.....	12	46	....	....	1
Totals.....	230	2,520	17	184	25

Where any limbs were cut off the wounds were sealed with coal-tar. A large number of bolts, iron straps, etc., were removed from trees, of which no special record was made.

One 15-inch bolt was put through a tree on Lake street, which was splitting. This will prevent further trouble from this cause. Considerable pruning was done, such as cutting off limbs which interfered with travel, also where touching buildings. There is a demand for this kind of work to be done all the time. The heavy gales experienced this past year have caused a large amount of work to be done, especially in clearing the broken limbs from the streets and pruning the trees where damaged. This kind of work has to be attended to by the tree warden; also, he is expected to answer calls at night time to clear broken limbs from the streets. Quite a number of these calls have been answered in the night during the past year.

TREES CUT DOWN.

Eight (8) dead trees were cut down on Pleasant street early in the spring. These trees were supposed to have been killed by gas the summer before. Later in the summer six (6) more trees were cut down on this street, which were no doubt killed by escaping gas, as in all cases where a tree died a leak was discovered in the gas pipe. Six of these leaks were found in the gas main laid some months before. These leaks were all in the joints of the pipes, which indicate that the work was not properly done. At my orders every joint on the new gas main was tested for leaks, but no others were found, except those that had caused the trouble. Four (4) more trees on this street are apparently dead, but as they showed signs of life on some limbs we gave them the benefit of the doubt. It will be easy to determine in the spring whether they are dead or not, and whether the gas company are to be held responsible for their killing, as well as the others. Two (2) dead elm trees were cut down on Medford street, also one horse chestnut on Winter street which was unsafe. One unsightly elm tree in front of the Finance block on Massachusetts avenue was cut down, as an improvement, after holding a hearing for the same.

Four (4) trees were cut down at the junction of Massachusetts avenue and Appleton street and five (5) on Broadway, after due notice being given that they were to be cut down.

The trees were all taken down on account of street improvements. Five hearings were held for the cutting down of trees, after notices being posted, as required by law. As most of the live trees were cut down on account of street improvements, members of the Board of Selectmen were present at these hearings to present their side of the question. There was only one remonstrant at one of these hearings, and in all cases my decision was that the trees should be cut down, but to give the

doubt to any that could be possibly saved. We were able to save quite a number of trees on Broadway, which looked as if they would have to be cut down, by waiting until the street lines and grading could be fully established.

In the cutting down of trees we were assisted by men from the Highway Department, and the teams of that department carted off the wood. Considerable trimming has been done for the various electric companies owning wires in the Town, the largest work of this kind being done on Broadway for the Boston Elevated Railroad Company on account of the new trolley wires in this street. This class of work was paid for by these companies, they being given to understand that we would furnish men for this purpose when required, and that I would not allow any cutting of limbs without its being done under my supervision.

PLANTING OF TREES.

Fifty (50) rock maple trees were planted on the highways the past year. These trees were furnished and set out by the Highway Department, under my supervision. Having no appropriation for the purchasing of tree protectors, we so informed the citizens where we planted trees in front of their places, and suggested that they provide a protector for the same, and I am pleased to say that in most cases this was done. Quite a number of trees were planted on the highways which were furnished by the citizens.

The following is a list of streets on which the fifty trees spoken of were planted: Teel street, 2; Massachusetts avenue, corner Teel street, 4; Marathon street, 7; Cleveland street, 1; Massachusetts avenue, between Franklin street and Soldiers' Monument, 3; Chestnut street, 5; Mystic street, near Chestnut street, 1; Mystic street, near John Crosby's, 2; Mystic street, near

Davis avenue, 1; Davis avenue, 2; Draper avenue, 2; Bartlett avenue, 8; Gray street, 5; Robbins road, 2; Westminster avenue, 1; Oakland avenue, 2, and Wollaston avenue, 2.

THE BROWN-TAIL MOTH.

The attention of the citizens is called to this destructive insect which is rapidly spreading over the Town. The nest of the moth can be easily distinguished in the winter months, as it is found on the tips of twigs and branches, and looks like a bunch of dead leaves. The nest or tent, as it is properly called, is made of a few leaves which are surrounded by a mass of silken threads. It is so firmly fastened to the twig that it cannot be removed without using considerable force. The tents should be clipped off the branches during the winter months and should be *burned immediately*, as the caterpillars are hibernating in them at this time. Pear trees seem to be the favorite food of this insect, but the great number and variety of other food plants to which the insect adapts itself, indicates that it may become a very serious pest to a wide range of fruit and shade trees. The web or tent of the brown-tail moth should not be confounded with that of the tent caterpillar or fall web-worm. As said before, the tent will be found on the tips of branches and twigs, while the web of the tent caterpillar is found in the fork of limbs. The fall web worm spins a large open web on the ends of branches and feeds within this web. This insect does not appear until after the brown-tail moth has ceased to do damage. The brown-tail moth is an exceedingly dangerous pest, not only defoliating trees and shrubbery which it comes in contact with, but actually poisoning some people. A painful irritation or nettling is caused by the hair of the caterpillar coming in contact with the skin, and in many cases the aid of a physician is necessary.

The proper way to suppress this pest is that individual interest should be shown by all property owners who have any trees or shrubbery on their premises, in clipping off these nests before the warm weather of the spring arrives. The tree warden will have enough to attend to, to care for the trees on the highways, without having to contend with this insect from private property.

RECOMMENDATIONS.

I would recommend that seventy-five (75) rock maple trees be purchased and planted on the highways this coming season, also that these trees be protected by wire tree protectors. I would also suggest that a sufficient number of tree protectors be purchased, to provide one for every young tree not having one. In my opinion, it is a waste of money to plant trees on the highways without providing them with a tree protector, and an inspection will show that a large percentage so planted are either injured by horses or otherwise, to the extent that if they are not killed, they will never make a shapely tree. I think it would be economy to purchase some of the wire patterns of tree protectors now manufactured, rather than attempt to use the old style wooden protector, which has been used so much in the past years. The improvement in looks would certainly be in favor of the wire protector. The difference in cost of this style and the old would be small. I would recommend that sufficient appropriation be made to continue the trimming of trees, as there is a large amount of this work to be done. As the work was done in the past year by citizens of the Town, I would suggest that we continue to employ Town help, if we can find men capable to do the work. Something should be done to suppress the ravages of the canker worm on certain streets in the Heights section of the Town. For the last five years this pest has raged on Apple-

ton and Vine streets, between Oakland and Park avenues, and on the side streets in this vicinity. The foliage on the large elm trees has suffered so as to look as if a fire had swept through them. A determined effort should be made to suppress this insect, as there are many large and beautiful shade trees in this section of the Town.

IN GENERAL.

In regard to the burning of trees by electric light wires, I wish to state that there has been less of this kind of an injury to trees during the past year, than since the introduction of electric lights into this Town. I have given this matter my personal attention, and all cases where wires were reported burning trees they were attended to immediately by the Somerville Electric Light Company. At my orders the Electric Light Company has given this matter thorough attention, and has provided tree insulators where needed. It is utterly impossible to keep wires free from contact with trees, especially where limbs are thick, and the only way to prevent injury to trees from this cause is to report to the tree warden or Somerville Electric Light Company where wires are seen burning the trees, and measures will be taken to remedy trouble at once.

In concluding this report, I wish to extend thanks to the Honorable Board of Selectmen, and to the Superintendent of Streets, Mr. S. E. Kimball, for their many courtesies extended.

Respectfully submitted,

Reuben W. Le Baron,

Tree Warden.

REPORT OF INSPECTOR OF WIRES.

To the Honorable Board of Selectmen:

GENTLEMEN—I have the honor herewith to submit the first annual report as Inspector of Wires, for the year ending December 31st, 1900. At a meeting of the Board of Selectmen held March 24th, I was appointed Inspector of Wires, and Superintendent of Fire Alarm, and assumed the duties of these offices on April 1st.

INSPECTION OF WIRES IN BUILDINGS.

Special attention has been given to the wiring of buildings throughout the Town, as there has been some very poor work done in this line, within the last few years, which was never inspected. I am pleased to say that all suggested changes have been cheerfully made by the contractors doing work, the result being that the work now done is in accordance with the rules of the National Board of Fire Underwriters.

During the past year 94 inspections have been made, as follows:

Total number of buildings inspected	73
Total number of inspections	94
Total number of buildings inspected for rough wiring	60
Total number of buildings inspected for fixture work	11
Total number of lights wired for	994

POLE LINES.

The past year is one in which a large number of changes have been made in the pole lines of this Town.

The principal changes have been made on Medford and Mystic streets and on Broadway.

MYSTIC STREET.

This street needed attention on the pole question, more than any other. In the early spring work was commenced by your Honorable Board and myself on this question. I am pleased to say that after a great amount of labor and correspondence, the work was completed on December 31st.

At a meeting of your Board held in the early summer an understanding was reached between representatives of the Lynn and Boston Railway Company and the Somerville Electric Light Company as to building a line of poles to be owned jointly by these two companies, this pole line to take the place of the two separate pole lines owned by these companies. The new pole line was built from Massachusetts avenue to the Winchester line and the old poles removed. The wires of the Atlantic Telegraph Company were also placed on these poles, thus doing away with a third line of poles.

In the removing of the wires of the Electric Light and Telegraph Companies from old poles owned by the New England Telephone & Telegraph Company, we were also able to do away with quite a number owned by that company. I am pleased to say that instead of having three, four and five lines of poles, as was the case in certain places on this street in the early spring, that there are today two pole lines carrying the wires of four different companies and those of the Town, and that this street has eighty-one poles less than a year ago.

All wiring on this street has been done to my satisfaction. The electric railway has practically rebuilt its line and has provided guard wires where called for. Cut-off switches have been placed on the trolley and feed wires so as to shut off the current

in case of fire, accident, etc. These switches have been placed, one near the corner of Summer street and other at the Winchester line. By the running of the wires of the Atlantic Telegraph Company through Winslow street in rear of the coal sheds, and the turning of the same into the upper side of the railroad station, we have been able to dispose of these wires at the head of Mystic street, also doing away with the same on the Town Hall side of station. In changing these wires we have also been able to dispose of the old pole that stood in the rear of Town Hall near depot, and to have the poles on the railroad property painted.

MEDFORD STREET.

Owing to the electric railway location granted on this street, two new lines of poles have had to be set, one owned by the New England Telephone & Telegraph Company and the other by the Somerville Electric Light Co. This makes three lines of poles on this street, but negotiations are under way with the third company as to taking a location on one of the new pole lines. The wire systems on this street will probably not be finished until late in the spring.

BROADWAY.

In the granting of a location to the Boston Elevated Railway Company for an electric road, a reconstruction of the wire systems on this street was necessary. The Telephone Company was granted locations for a new line of poles from Massachusetts avenue to the junction of Warren street, these poles to be used in connection with the poles of the Electric Light Company for suspending the trolley wires. The Somerville Electric Light Company rebuilt its pole line through this street, which was very necessary in some places. Extra high poles of large size were set from Palmer street to the Soldiers' Monument, to carry

the electric light wires over the trees, which was the most satisfactory way in which it could be done, other than the building of an under-ground conduit.

A very satisfactory piece of line work was done by all companies doing work on this street. At my orders the *live circuits* of the Electric Light Company have been designated by a white cross being stamped on the cross-arm under each wire. This is being done throughout the Town. In the designating of these wires the liability of accidents will be greatly lessened, as any linemen doing work in the Town will be able to distinguish the live wires, this being the general way in which these are marked.

OTHER POLE LINES.

Careful inspection has been made of all poles throughout the Town, and when any unsafe ones were found they were replaced by new ones. As the past season has been a very busy one on the pole question, many streets on which an improveemnt could be made have had to be deferred until later. All new poles are inspected before setting, and a large number were condemned.

UNDER-GROUND CONDUITS.

The New England Telegraph & Telephone Company have built a system of under-ground conduits on Pleasant street, from Massachusetts avenue to the Belmont line, the past summer. This company has placed one cable in these conduits which is to take the place of the several aerial cables at an early date. On Massachusetts avenue, where a conduit was built last year by the same company, quite a number of under-ground cables are in use, and it is their intention to do away with all the aerial cables at an early date, especially between Jason and Tufts streets.

SWITCH-BOARD FOR STREET LIGHTS.

The first of the year a switch-board with electrical instruments was installed in the Town Hall for the purpose of testing the current on the street lighting circuits. Since that time tests have been made nightly at all hours. These tests have shown, with a few exceptions, that the current furnished was up to the contract requirements, and in some cases considerably more. In the exceptional cases the falling off was due to accidents to the outside wires or to the machinery at the Somerville Electric Light Company's station.

FIRE ALARM SYSTEM.

Owing to the rapid increase of wires in this Town in the last few years, especially those of the high potential class, such as electric light and trolley wires, the working conditions of the fire alarm have been constantly changing. As the Town has never made any special appropriation for the reconstruction of the system to meet this changed condition of affairs, a large amount of time and labor have had to be spent the last year to bring the system up to where it belongs, for a Town of this size. This has not been fully accomplished as yet.

WORK DONE ON SYSTEM.

A thorough inspection and overhauling has been given this system, with a view of strengthening the same. All new work done was planned with a view for the future.

The line wires of the system have been changed from all poles on which electric light wires run, as far as practical. The largest change in this line was made on Massachusetts avenue from the Town Hall to Broadway and from that point down Broadway to Tufts street. The new wires were run on the telephone poles on

Massachusetts avenue down as far as Palmer and Tufts streets, and through these streets to Broadway and Warren street. In making this change the loop of wire running up the railroad track from Lake street and through Linwood street to Box No. 16 was done away with and about 4,200 feet of line wire was cut out of this district. Owing to the change in location of the Fire Alarm Headquarters, considerable extra line work had to be done.

In the abolishing of the grade crossings at Brattle and Forest streets and at Park avenue a large amount of extra labor had to be done by this department. At all these crossings the fire alarm and other wires, also all poles, had to be taken down and moved out of the way of the derricks and the guy wires to the same. All these wires have been moved back to a permanent location except those at Park avenue, which will be done as soon as the Telephone Company sets its new line of poles. The building of new pole lines on various streets has also given this department considerable extra work. A new pole was set for Box No. 13, on the corner of Henderson and Sawin streets. The gong on Hose No. 4 House was taken off that building and placed on the top of this pole in a wood case, with wire netting in front and on the sides of same. The sound of this gong can be heard more distinctly over this district than ever before, as the old location was between buildings and a considerable distance back from the street. About one-half the boxes have had the lead wires to the same run up the poles in galvanized iron pipe. This does away with these wires dangling down the poles, also gives additional protection to the same from the linemen working on the poles, or any person wishing to tamper with them. We have nearly enough pipe on hand to change over the balance of boxes not done this way.

Hose No. 2 and 3 Houses have been rewired. The box wires

and pipes have been removed from the front of these buildings and the new wires have been brought through the walls from the inside of buildings. In view of the four companies located in these two houses having to answer more alarms than any others in the Town at the present time, the wiring in each house was planned for two circuits to meet changes which will have to be made in the fire alarm system at an early date. The tower bell striker on the Park Avenue Church at Arlington Heights was also rewired. A new foundation was put under the striker for this bell; also the frame of the bell was braced to prevent shifting of the same, which has caused considerable trouble in the past.

Hose No. 1 House was also wired and a 6-inch gong was placed in this house. The Town Hall building was also wired by this department for the storage battery system; also wires were run from the interior of building to Box No. 36 on the front of same and to the whistle in the tower, thus doing away with all line wires on the outside of this building. All interior wiring done was installed in the best possible manner and in accordance to the rules governing wiring for high potential currents.

STORAGE BATTERY.

At the March Town meeting an appropriation was made of $500.00 for purchasing a storage battery for the fire alarm system, as recommended. After careful investigation of the various systems in use in the surrounding towns and cities by Chief Gott of the fire department and myself, the contract was awarded to the Gamewell Fire Alarm Telegraph Company, of Boston, Mass., this company being the one which installed our fire alarm system some years ago. The system installed consists of 74 cells of battery, one battery rack with sufficient shelf-room for additional batteries when required. One four-circuit

slate switch-board, equipped with ammeter and voltmeter and all other electrical instruments required on a system of this kind. The advantages of the system over the old gravity battery system are that it is much cleaner, takes up less room, the current delivered is more constant and it is a great deal more economical. The cost saved in purchasing of chemicals and other battery materials for the old system will more than pay for the new system inside of two years. The cost of operating the new system is practically nothing.

The terminal switch-board for the fire alarm circuits, also the switch-board for the power wires supplying current to the storage battery, were built and set up by this department. At the order of your Honorable Board I was requested to place this battery in the Town Hall building, and change the fire alarm headquarters from the William Penn Hose House to that building.

UNDER-GROUND WIRES AND GENERAL REPAIRS.

At the adjourned Town meeting in November an appropriation was made for the placing of the fire alarm wires underground on Pleasant street, and for general repairs to boxes and lines where needed. 10,000 feet of rubber-covered wire was installed in the conduits on Pleasant street, also 256 feet of $\frac{3}{4}$-inch galvanized iron pipe was used between the manholes and boxes. This system was cut into circuit on December 15th, thus freeing the fire alarm system from the worst street in Town to maintain an aerial wire on, owing to the great number of trees. A $2\frac{1}{2}$-inch conduit pipe was run up on the side of Town Hall building, in the alleyway between that building and Post Office block. This pipe connects with the under-ground conduits entering this alleyway. A terminal box was placed on the wall at the end

of this conduit, large enough to take all wires owned by the Town for some years to come.

Fire alarm boxes Nos. 25, 36, 39, 41 and 45 have been sent to the factory and had the works inside of same cleaned and re-polished; also the wire to box bell magnets changed, to conform to the latest methods in use.

Key boxes and keys have been placed on boxes Nos. 25, 34, 35, 39, 4, 45, 54. To give an alarm of fire break the glass in front of key-box, take key and open the alarm box door and pull the hook down *once* and let go. A keyless door has been placed on Box No. 36 on the Town Hall building. To give an alarm from this box break glass and turn handle to open door. The hooks inside must be pulled to give an alarm. The quickest way to break the glass in these key-boxes is to hit the same with the elbow, if a rock or some other article is not handy. Considerable saving in time should be made in giving an alarm, especially in the night time, by having these keys on the boxes, instead of having to go to somebody's house and wake the people up to get the key. The boxes thus equipped have been painted, and a general painting should be given all the boxes in the spring. New signs have been placed over all other boxes, giving the names of the key holders to the same. The electric air pump for whistle has received a thorough overhauling in the hands of machinists. New bearings have been put on in the place of the old ones, which were much worn; also an improvement has been made in the air connection of this pump. This work was done at a cost of less than $15, which is the first expense on this system since the same was reconstructed by Prof. Schwamb three years ago.

The whistle machine and all tower bell strikers have been overhauled and cleaned by this department.

ALARMS FOR YEAR 1900.

Forty-four (44) alarms of fire, thirteen (13) no school signals and one (1) special signal on Memorial Day, making a total of fifty-eight (58) alarms have been transmitted over the system during the past year, this being the largest number since the system was installed.

RECOMMENDATIONS.

I would respectfully suggest that a 4-circuit repeater be purchased and that the fire alarm system be divided up into four sections, as the method now employed in operating the system is not up to date. Under the present arrangement the whole system is operated on one circuit, and if a wire breaks or anything gets out of order the whole system is crippled, until a switch can be thrown in fire alarm headquarters, which about half divides the system. With a 4-circuit repeater only one section would be out of order at a time, consisting of six or seven boxes, instead of the whole twenty-nine boxes, until the switch in Town Hall could be thrown, which would leave it twelve or seventeen boxes out of circuit. As more boxes are needed throughout the Town, especially in the upper section, the changes recommended should be made as soon as possible.

I would also suggest that a gong be placed in Hose No. 2 House, as having to depend on a tower bell striker is rather an uncertain and an unsatisfactory method of receiving an alarm in as important a fire station as this is to our Town in these times.

I would also respectfully suggest that if changes are made toward dividing the fire alarm into more circuits, that all wires of this system be placed under-ground, between Bartlett avenue and Franklin street. From these points they can be easily extended from year to year, at a small expense, and the aerial line

wire taken down, will be more than enough to do the wiring on the side streets without having to buy any more of this kind of wire.

IN GENERAL.

In concluding this report permit me to return thanks to you, gentlemen, for the support you have given me in the discharging of my duties; also to the Town Clerk, Mr. B. Delmont Locke, and his corps of assistants. To the chiefs of the Fire and Police Departments and to the men in their departments I am also greatly indebted, and extend my thanks.

Respectfully submitted,

R. W. Le Baron,
Inspector of Wires.

Report of the Engineering Department.

ARLINGTON, December 31, 1900.

To the Board of Selectmen of the Town of Arlington:

GENTLEMEN—Herewith I respectfully submit a report of the work done and the expense incurred by the Engineering Department to December 31, 1900.

The Engineering Department was organized April 1, 1900, the date of the appointment of the Town Engineer.

The work of the Engineering Department consists of the designing of all public engineering works; the supervision of the various other special work ordered by the Town government from time to time; the superintendence of sewer construction, particular sewers, and maintenance; the making of all surveys, plans and profiles, estimates, specifications, and marking lines and grades for the several town departments and committees; the making of assessment plans and computing of assessments for sidewalk and sewers, and the locating, recording and indexing of all work and data under the control of the Town Engineer.

Five assistants have been employed in the department during the year, four permanently and another as the work required. Practically the entire time of one man has been spent on particular sewers, sewer construction and maintenance.

The cost of all engineering has been charged to the appropriations of the several departments for which the work was done.

The summary of expenses is as follows:—

Salary Town Engineer (April 1 to Dec. 31)	$1,125 00
Maintenance of team (April 1 to Dec. 31)	117 00
Salaries of assistants	2,728 75
Draughting materials, stationery, and office supplies	80 57
Tapes, tools, stakes, car fares, and expressing ...	101 01
Total	$4,152 33

The surveying instruments, tables, and various drawing materials belong to the Sewer Department, for use of which no charge to other departments has been made.

Classification of expenditures, assistants' salaries:—

HIGHWAYS

Highways: Comprising plans, estimates, titles, profiles, lines and grades, assessments and measurements on streets and sidewalks, and storm drains	$559 21
Separation of Grades, Boston & Maine Railroad: Comprising lines and grades	3 13
New England Telephone Company: Comprising lines and locations of poles	*10 38
Somerville Electric Light Company: Comprising lines and locations of poles	*1 50
Board of Survey: Comprising plans and grades.	22 10
Broadway Reconstruction: Comprising plans, specifications, lines, grades and measurements on streets and sidewalks	305 59

* Denotes items from which a credit amounting to $529.77 will be paid to the Town Treasurer for engineering work done, and also for Superintendent on particular sewers.

Boston Elevated Railway Company: Comprising grades, plans and profiles	*32 84
Street Lines: Comprising data of established lines and grades given parties for grading and building	*8 50
Sewers: Comprising surveys, profiles, lines, grades, estimates, titles, assessment plans, inspection, and superintendence on sewer construction, particular sewers, and maintenance	*1,215 96
Water Works: Comprising lines and locations of mains, gates, hydrants, services, plans and specifications	383 89
Cemeteries: Comprising lines, grades, plans and specifications relating to Mt. Pleasant Cemetery	118 30
Parks: Comprising lines, titles, plans, and superintendence on work at Meadow Brook Park.	31 58
Schools: Comprising plans and grades at Cutter School building and lot	29 84
Fire Alarm: Comprising plans and locations of Pleasant street conduit	5 37
Health Department: At Meadow Brook Park..	56
Total	$2,728 75

No new streets have been accepted this year, but a list (appended to this report) has been compiled of those previously accepted, including the old town ways to December 31, 1900. Their total length by scale is 31.6 miles. The name of Oak street has been changed to Hutchinson road. A double line of car tracks has been laid across the Boston and Maine Railroad on Massachusetts avenue, and a turnout and two crossovers laid

on Massachusetts avenue, between Pleasant street and Water street; these, with the double line on Broadway, make the total length of electric railway tracks in the Town to December 31, 1900, 10.45 miles.

STORM DRAINS.

Plans and profiles showing locations, grades, manholes and all data in connection therewith of all storm drains constructed from 1896 to 1901 are on file in the Town Clerk's office.

BROADWAY.

In the reconstruction of Broadway to its full width of 64 feet (as laid out by the County Commissioners in 1889) it was found that in order to save the trees it would be necessary to place the edgestone lines at least 10 feet from the side lines of the street the greater part of the way between Massachusetts avenue and Warren street. The car tracks and paving are 17.2 feet in width, so that there is a travelway of 13.4 feet on each side from the paving to the edgestone lines between these points. From Warren street to Alewife Brook there were no trees in the sidewalk on the north side of the street, accordingly the sidewalk was here made nine feet wide and an additional foot of space added to the roadway.

The storm drain was completed and catch-basins were provided and placed at suitable intervals and at all changes of grade, also at street intersections, to prevent a flow of water across the intersecting streets.

BRIDGES.

All the highway bridges are in good condition. River street bridge is the only Town bridge of wood construction, and is maintained jointly by Arlington and the city of Medford.

Lowell street bridge is a wooden bridge over the Boston and

Maine Railroad resting on stone abutments and built in 1886. The bridge is now in an unsatisfactory condition, the span being too great for the timbers in the manner in which they are laid, causing the bridge to vibrate with every passing team. The County Commissioners should cause a new bridge to be built the coming season.

SEPARATION OF GRADES, BOSTON & MAINE RAILROAD.

In accordance with the decree of the Superior Court, Commonwealth of Massachusetts, filed June 30, 1899, the Boston and Maine Railroad began operations toward the separations of grades on Grove street May, 1900. Work at Brattle street was begun a little later, and then in turn Park avenue, Bow street and Forest street.

The work has been done in accordance with this decree, and the plans approved by the Commissioners. Owing to the lateness of the season it was impossible to complete some of the details of the construction. It is the intention of the Railroad Co. to complete the remaining grading, seeding of slopes, and other details as soon as practicable.

WATER WORKS.

Lines and grades for laying water pipe and miscellaneous data have been furnished the Water Department when requested. Locations of all mains, hydrants and gates laid during the year have been made, recorded and placed on file.

Estimates and specifications were prepared for laying pipe by contract in Forest and Brattle streets, also measurements of ledge and excavation. All extensions and alterations on the water system to date have been shown on the maps and plans of the Water Department. A new small map showing the entire system has also been compiled. The old gates on the low-service

cement mains have been located and will be recorded for future reference.

Nearly all the service boxes on house connections have been located. This work will be soon completed and the locations recorded.

MT. PLEASANT CEMETERY.

Lines and grades have been given at Mt. Pleasant Cemetery for grading about 3½ acres, including plats and avenues. The work has been done under contract with Michael J. Kelley, who was the lowest of four bidders.

The loam was stripped and stored on adjacent ground convenient for the final sub-grading. About 4,200 cubic yards of gravel have been excavated and deposited for filling in Meadow Brook Park and along the westerly boundary of the cemetery.

The excavation will be completed and final grading of the surface done as soon as the season is favorable.

A final plan showing the lay-out of the avenues and the lots with their areas will soon be finished and ready for future reference.

SEWERS.

The sewers constructed this year were in the Crescent Hill District and Medford street, and comprise a total length of 0.65 miles. This work completed the contract made with H. A. Hanscom and Company in 1899 for building sewers in Section Seven of the Arlington Sewerage System.

The total length of sewers laid in the Town to December 31, 1900, is 20.75 miles, of which 3.47 miles are controlled by the Metropolitan Sewerage Commissioners.

The total connections with the sewers number 557 and the area drained is about 1.6 square miles. The entire system has been thoroughly cleaned and examined and is in first class condition.

All sewer plans and records are being compiled to date. Reference is made to Sewer Commissioners' Report for details of sewers.

MISCELLANEOUS.

Parks. Trenches for draining a portion of the low lands adjoining Meadow Brook Park were dug and connected with Mill Brook. Plans were made and titles looked up, of Alewife Brook and adjacent territory, also line for a fence was given on Medford street.

School. All preliminary work relating to the grading of the Cutter School lot and the laying out of the walks has been completed. Levels and grades were also given for the drainage of the lot.

Fire Alarm. Plans showing the location of the Pleasant street conduit manholes have been made for the use of the superintendent; also a plan showing the location of fire alarm boxes to date is under way.

The total length of the wire conduits which have been laid in Pleasant street and Massachusetts avenue during 1899 and 1900 is 3.90 miles.

Office Work. It has been the aim during the year to keep accurate records and plans of all the engineering work done by the several departments. At present there is no adequate place for the storing of the valuable plans of the Town work, which are constantly accumulating. The great value of these plans as records demands that they be kept in a vault or safe. As the present one is much over-crowded, space must soon be provided elsewhere before the plans are destroyed, owing to the rough usage which they now sustain.

Respectfully submitted,

ROBERT W. POND,

Town Engineer.

Report of the Sewer Commissioners.

The Board of Sewer Commissioners herewith present the engineer's report in detail, of the work of this department for the year ending December 31, 1900, with a series of tables, showing the completed construction of the system to date.

It is a matter of satisfaction that the Board is able to report that all the outstanding contracts have been completed and settled, and that the entire system is in satisfactory working order.

EDWARD S. FESSENDEN,
WINFIELD S. DURGIN,
WARREN W. RAWSON,

Sewer Commissioners.

To the Board of Sewer Commissioners of the Town of Arlington:

GENTLEMEN—Herewith is respectfully submitted the annual report of the work of the Sewer Department for the year ending December 31, 1900.

The construction work this year has consisted of building sewers on Crescent Hill in the district known as Section 7 of the Sewerage System and in Medford street.

This work was constructed by H. A. Hanscom & Co., and was part of their contract made in 1899.

The streets comprising this section are: Westmoreland avenue, from Lowell street to Crescent Hill avenue; Westminster avenue, north and south from Westmoreland avenue; Montague

street, from Westminster avenue to Crescent Hill avenue; Crescent Hill avenue, north and south from Montague street; and Crescent Hill avenue, north and south from Westmoreland avenue. Large quantities of very hard ledge were encountered on the work; and this, together with the hard blue gravel and boulders, made progress necessarily slow.

The sewer in Medford street extended from Lewis avenue to the summit of the grade near Hamlet street. The construction was included in the contract with H. A. Hanscom & Co. The entire length of these sewers is 0.65 miles. When practicable, water services have been placed in the end manholes of the sewers built this year for flushing purposes.

Owing to the large amount of sewer construction under way since 1895, a great number of valuable miscellaneous records had accumulated in the office of the department. From January to April, 1900, the time of the engineering force was spent in arranging and indexing this data, so that all records are now accessible and convenient for daily use. Also within this time the sewer assessment plans of work done in 1899 were made and bound, and tables showing the detailed cost of sewers built from 1897 (the date when the last tables were published) to 1900 were compiled and are attached to this report.

Since April 1, 1900, when the Engineering Department was organized, the cost of all engineering, superintendence and inspection on sewer construction, particular sewers and maintenance has been included under that department.

Reference is made to the Town Engineer's report for details of expense.

The total expenditure for sewer construction and maintenance to date is $256,089.75. The total assessments levied are $119,712.06, of which $71,106.16 has been paid to the Town Treasurer.

TABLE SHOWING COST OF SEWERS BY STREETS, 1898.

Willow Place, Mass. Ave. to end, 174 " Total Cost $225 21 for labor, materials and engineering. (Built April, 1897.)

MAINTENANCE.

The sewerage system of the Town has been maintained along the same lines as in former years. The system has been regularly flushed and cleaned and is in the best of condition. It has been necessary this year to change the grade of many manhole frames to conform to the new grade of the streets where repaired and rebuilt by the Highway Department. All the manholes in Broadway had to be changed to meet the grade of the car track, and the tide gate, regulator and sump manholes, near Alewife Brook, were raised about 10 feet to the new grade. One manhole on Park avenue was raised 20 feet to the new grade, caused by the separation of the grades at the railroad.

The total cost of maintenance for the year, including care of horses and teams, is $937.51.

PARTICULAR SEWERS.

The methods of carrying on the work of this department are the same as in former years. Care and attention are being constantly taken to make the work of the department of the highest efficiency. There have been 90 particular sewers constructed during the year, a total length of one mile.

The average cost is 61 cents per lineal foot. Many of the particular sewers constructed this year were at Arlington Heights, where there is often hard ledge and always hard blue gravel to excavate. There are now 557 particular sewers in operation, comprising a total length of 6.75 miles.

CONCLUSION.

All the sewer materials which were heretofore stored temporarily at Arlington Heights and Winslow street have been re-

moved to the Sewer Department Yard on Linwood street, which was fenced for the purpose last year.

The cement house, built in 1899, was stocked with cement early in the year, and has proved of great benefit and convenience to the department.

It has not been necessary to buy any sewer pipe this year, as the supply purchased in 1899 was sufficient for all requirements, and there is probably still enough on hand to carry the department through the coming year.

The following is a summary of property in charge of the Sewer Department:—

Horses and stable equipment	$785 00
Tools	426 00
Sewer pipe	1,388 00
Miscellaneous sewer materials	750 00
Cement house and fence, Linwood St.	568 00
Castings and iron pipe	241 00
Office fittings, supplies and instruments	405 00
Surveying instruments	345 00
Sewer plans (estimated)	8,500 00
	$13,400 00

Respectfully submitted,

ROBERT W. POND,
Superintendent.

REPORT

OF

WATER COMMISSIONERS.

The Water Commissioners herewith submit their annual report for the year ending December 31st, 1900.

The pipe systems have been extended and renewed as required during the year. The low-service system has been extended on Grove street to Grove street place and on Dudley street to Grove street. A 10-in. pipe has been laid in Parallel street, connecting with a 12-in. valve on the Metropolitan main. From the end of this pipe a 6-in pipe has been laid in Franklin street to Lewis avenue, thus giving a second connection to Warren street. The pipe formerly laid in Broadway has been placed in service and connected with all the cross streets, and the old cement-lined pipe from Warren street to the Somerville line has been abandoned. The high-service system has been extended on Forest street, Pierce street, Lowell street and Brattle lane. A part of the above mentioned pipe replaces old cement-lined pipe, as will be shown in the detailed statements which follow.

PIPE EXTENSION AND RENEWALS.

In all, there have been laid 1977.5 ft. of 12-in., 503.7 ft. of 10-in., 3509 ft of 8-in. and 3763.6 ft. of 6-in. pipe, a total of 9753.8 ft. of main pipe; 21 hydrants and 24 gates were set, and 7 hydrants were removed from the low-service system.

There have been added this year 76 services, 59 connected with the high and 17 with the low-service. Thirteen services

have been transferred from the low to the high-service. Two sewer-flushing services have been added, making a total of 54 now in use.

The cement-lined pipe replaced and abandoned is as follows: 1977.5 ft. of 12-in., 3328 ft. of 6-in. and 2680 ft. of 4-in.

In July the 10-in. main on Park avenue, between the railroad and Lowell street, suddenly gave way, probably due to settlement on account of the filling being done to raise the grade for the railroad crossing. Because of the great depth of the pipe and possibility of repeated breaks due to settlements, it was decided to lay a temporary pipe over the bridge on Lowell street to supply the Crescent Hill district. This 6-in. pipe was later laid permanently, it being considered unwise to lay the high-pressure pipe in Park avenue on a new fill because of the liability of settlement. It is proposed to lay this pipe later, when all settlement shall have taken place, with an allowance out of the grade crossing fund.

The following tables give the extensions and renewals in detail, with a list of abandoned pipes:

LOCATION.	Length, feet.	Size, inches.	Hydrants.	Gates.
Forest street	3044.5	8	6	3
Forest street	30.6	6		
Brattle lane	244	6	1	1
Peirce street	563	6	2	1
Lowell street	556	6	1	2

In all, 3044.5 ft. of 8-in., 1393.6 ft. of 6-in. pipe, 10 hydrants and 7 gates. One hydrant has been temporarily abandoned on Park avenue.

To extend the Low-Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Parallel street	410.7	10	1	
N. Union street	36	8		1
Grove street	501	6	1	2
Dudley street	316.5	6	1	
Franklin street	464.5	6	2	2
Broadway	38	6	6	1

In all, 410.7 ft. of 10-in., 36 ft. of 8-in. and 1320 ft. of 6-in. pipe, 11 hydrants and 6 gates.

To replace cement-lined pipe on Low-Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Massachusetts avenue	1977.5	12		1
Pleasant street	93	10		1

Water street	37	6		1
Central street	48	6		1
Court street	41	6		1
Hamlet street	15	6		
Medford street	15	6		
Winter street	22	6		1
Broadway } laid in	950	10	3	2
Broadway } 1899	1666	8		

In all, 1977.5 ft. of 12-in., 1043 ft. of 10-in., 2094.5 ft. of 8-in., 1050 ft. of 6-in pipe, 3 hydrants and 11 gates.

Abandoned pipe Low-Service.

Location.	Length, feet.	Size, inches.	Hydrants.	Gates.
Forest street	730	4	1	
Brattle street	1303	4	1	

In all, 2033 ft. of 4-in. The services formerly connected to this pipe have been transferred to the high-service pipes.

PRESENT PIPE SYSTEMS.

Length of Main Pipe in use January 1, 1901.

LOW SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Cement-lined pipe	12	9,014		
" "	8	5,321		
" "	6	12,938		
" "	4	21,312		
Total		48,585	71	45
Iron pipe	12	2,127		
"	10	3,886		
"	8	8,611		
"	6	12,509		
"	4	12,207		
Total		39,340	80	81
Total both kinds		87,925	151	126
		16,652 miles.		

HIGH SERVICE.

	Size, inches.	Length, feet.	Hydrants.	Gates.
Iron pipe	12	16,503		
" "	10	17,180		
" "	8	12,544		
" "	6	39,960		
" "	4	524		
Total		86,711	175	139
		16,423 miles.		

Total of both services: 33.08 miles of pipe, 326 hydrants, 265 gates. In addition to the above, there are 3,436 ft. of smaller pipes, 2-in. to 1¼-in., which are laid in places where hydrants were not needed and the amount of water desired was small.

The details of the cost of the pipe extensions will be found in the Report of the Superintendent. Records and sketches showing the location of the pipes and connections have been made and arranged in convenient form for use and reference. Similar records are now being made of the service boxes.

QUALITY AND QUANTITY OF WATER.

As stated in our last report, the high-service was connected with the Metropolitan System on January 1st, 1900, the low-service having been connected on June 30, 1899. All our supply has thus been drawn from the Metropolitan System. Although the season just passed has been exceptionally dry, it has not been necessary to restrict the use of water. When the Wachusett reservoir at Clinton is completed the quality of the water will be much improved.

The average daily consumption of water on the high-service, in gallons, during the several months of the year 1900 was:—

January, 222,000.
February, 260,000.
March, 254,000.
April, 295,000.
May, 262,000.
June, 326,000.
July, 435,000.
August, 353,000.
September, 353,000.

October, 267,000.
November, 277,000.
December, 265,000.
Average for the year, 297,400.

For the 469 services this gives an average consumption of 634 gallons per service per day. The consumption in 1899 was 605 gallons per service, the increase in 1900 being about 5 per cent. The report of the Metropolitan Water Board shows a decided increase in consumption of water in the entire district, and unless this increase can in some way be checked extensive additions to the works will be required much earlier than was at first contemplated.

ACT OF LEGISLATURE IN REFERENCE TO OLD WATER SUPPLY.

As the result of the efforts of a special committee appointed November 20, 1899, the following act was passed by the Legislature, March 12, 1900.

Acts of 1900, Chap. 140:

An Act to authorize the Town of Arlington to maintain as a Public Park its Reservoir and Lands held for the Purposes of a Water Supply.

SECTION 1. The Town of Arlington may annually appropriate, to be expended under the direction of its park commissioners in conjunction with its water commissioners, such sums of money as it shall deem advisable for the maintenance, as a public park, of its reservoir and any or all lands held by it under the provisions of chapter two hundred and forty-two of the acts of the year eighteen hundred and seventy-three and of the acts to which that act is in addition; but nothing herein contained shall take from said water commissioners any of the rights given

to them by chapter four hundred and eighty-eight of the acts of the year eighteen hundred and ninety-five, or otherwise, or take from the town the right to maintain and keep its water supply as an auxiliary supply to the metropolitan water supply, or for any public use. The title to all lands and water rights conveyed to said town by deeds in form sufficient to denote a conveyance in fee shall be held to have vested in the town in fee, and said town is hereby authorized to sell and convey all such lands and water rights, as it shall by vote determine are not necessary for the maintenance of its reservoir or of a water supply.

SECTION 2. This act shall take effect upon its passage.

RESERVOIR.

The reservoir and reservoir lot have received the usual attention. The sum of $68.93 has been expended during the past year in cleaning and weeding. It is suggested that the reservoir lot and stand-pipe lot be placed in charge of the Park Commissioners, and that a sufficient annual appropriation be made to keep them in good condition.

WATER METERS.

Water meters have been in successful use during the past year for field irrigation, green-houses, hot-beds and wash-houses. Five meters have been added during the year, and 71 are now in use. The use of meters on domestic services is not yet recommended.

USES AND INCOME.

The following table, showing the number of fixtures supplied, has been prepared by the Water Registrar from the catalogue of services.

	Low.	High.
Number of services	1,101	469
Houses paying $25	288	217
First faucets	1,243	453
Additional faucets	1,482	1,034
First bath-tubs	507	377
Additional bath-tubs	7	5
First water-closets	782	375
Additional water-closets	2.5	153
Kitchen sink vaults	88	6
Hose	424	273
Horses	345	43
Cows	81	25
Meters	57	14
Fire hydrants; no income	151	175
Drinking fountains; no income	4	1
Stand-pipes for street watering; no income	13	6
Income, 1900	$30,523.37	

STOCK.

There are on hand, in addition to small quantities of pipe and fittings of all sizes and necessary tools and fixtures for repairing and carrying on the works, about 5,300 ft. of 12-in., 708 ft. 10-in., 3,200 ft. 6-in. and 1,100 ft. of service pipe.

RECOMMENDATIONS.

We make the following recommendations:

That all the cement-lined pipes on the low-service be replaced by iron pipes at as early a date as possible, beginning at the points where the pipes are giving the most trouble and where the pressure is highest.

That the water pipes be extended according to the established rules.

That the reservoir be maintained at its present level, and that the grounds around it be placed in charge of the Park Commissioners and used as a park.

Respectfully submitted,

GEORGE W. LANE,
PETER SCHWAMB,
GEORGE P. WINN,
Water Commissioners.

EXTRACTS FROM RULES OF WATER WORKS.

SECTION 15. The following rates will be charged annually for the use of water, namely:

DWELLING HOUSES.

Occupied by one family, for the first faucet.....	$6 00
For each additional faucet, to be used by the same family	2 00
For set tubs not supplied with faucets and filled by hose or other means, and for faucets supplied with portable tubs, the charge will be one-half the regular rates.	
For basins not connected, but convenient to other fittings, the rate will be $1.00 per year.	
Where a house is occupied by more than one family, one faucet only being used for all, for each family	4 00

Where a house is occupied by more than one family, the highest rates will be charged for each family, having the water carried into their part of the house:

Whenever one service-pipe supplies *four* or more tenements, and the rates are paid by the owner, there shall be a discount of ten per cent: *provided, however,* that in no case shall the net charge per tenement be less than thirteen dollars per year.	
For the first bath-tub.....	$5 00
For each additional bath-tub.....	3 00
For bath-tubs convenient to faucets, but not connected, the rate will be $3.00 per year.	

For the first water-closet	$5 00
For each additional water-closet	3 00
For hopper water-closets	8 00
For vaults flushed with kitchen sink water, in case such vaults are not used in connection with a water-closet, the rate will be $2.00 per year.	
When such vaults are used in connection with a water-closet there will be no extra charge.	
Where bath-tubs or water-closets are used by more than one family, for each family	4 00
Where two faucets are used, one for hot and one for cold water, and both emptying into one basin, but one charge will be made for both: *provided,* that in no case shall the charge for the use of water by a private family, exclusive of hose and stable, be more than	25 00

BOARDING HOUSES.

For the first faucet	$10 00
Each additional faucet	2 00
Water-closet or bath-tub, when used by boarders	10 00
Each additional bath-tub or water-closet	3 00

STORES, OCCUPIED AS OFFICE, SHOPS, OR SIMILAR PURPOSE.

First faucet	$6 00 to $20 00
For each additional faucet	2 50
For water-closet or urinal	6 00

MARKETS, SALOONS, RESTAURANTS, WORKSHOPS.

For markets, saloons, retaurants, workshops, or for purposes not included in any other classification, and not requiring more than an ordinary supply of water	$6 00 to $25 00

HOTELS.

For each bed for boarders and lodgers	$3 00
For each bath-tub in a hotel	10 00
For each water-closet in a hotel	10 00

PUBLIC BATHS.

For one tub in a public bath-house	$10 00
For each additional bath-tub	5 00
For one water-closet in a public bath-house	10 00
For each additional water-closet	3 00

STABLES.

Private Stables.	For the first horse	$5 00
"	For each additional horse	3 00
"	For one cow	2 00
"	For each additional cow	1 00
Livery club, and boarding stables.	For each horse.	3 00
Car and omnibus stables.	For each horse	2 00
Truck and cart stables.	For each horse	2 00
Provided, that in no case shall any stable be charged less than		5 00

The rates for stables include water for washing carriages without hose; when hose is used $3.00 additional.

HOSE.

The use of water through hose for lawns, flower-beds, washing windows and sprinkling streets, is limited to one and one-half hours between the hours of 5 and 8 A.M. and one and one-half hours between the hours of 5 and 8 P.M. Hose nozzles must not exceed 3-8 in. in diameter. The hose may be used by hand or it may be attached to a lawn sprinkler. For hose used in this manner, when supplied from the house service, the

charge will be $3.00 per year. If a separate service is used the charge will be $6.00 per year. If the use of hose is desired for a longer period, a meter must be placed on the hose connection and the water must be paid for at the rates mentioned below.

The Board reserves the right to change the above hours, or to cut off all use of water, except for domestic purposes, in case any contingency should arise requiring such a course.

STEAM BOILERS.

For each boiler in use not over twelve hours a day, for each horse-power..... $6 00

METERS.

Water for field irrigation, greenhouses or hot-houses, hot-beds and wash-houses must be metered at the rates mentioned below for metered water, and water may be used at all hours.

No meters will be installed for domestic purposes.

Meter Rates will be as follows:

Up to	40,000	cu.	ft.	per	year,	15	cents	per	100	cubic	feet.
From 40,000 to	80,000	"	"	"	"	13	"	"	"	"	"
From 80,000 to	1,000,000	"	"	"	"	12	"	"	"	"	"
Over . . .	1,000,000	"	"	"	"	10	"	"	"	"	"

The following meter rents will be collected each year in addition to the above charges:—For a 5-8 in. meter, $2.00; a $\frac{3}{4}$ in. meter, $3.00; a 1 in. meter, $4.00; a $1\frac{1}{2}$ in. meter, $8.00.

The minimum charge for metered water, including the meter rent, will be $15.00. In case more than one meter is used by a water taker the minimum charge for water will be $15.00 for each meter, including the meter rent. All water that passes through a meter will be charged for whether used or wasted. If a meter fails to register or records incorrectly the amount of water passing through it, the quantity to be

charged for shall be determined by the average daily consumption shown by the meter when in order. It is suggested that water takers read their meters occasionally to satisfy themselves whether or not they are working, and that they immediately send notice of any irregularity to the Water Board.

BUILDING PURPOSES.

The minimum charge for water for building purposes is $3.00. When more than fifty casks of lime or cement are used the charge is six cents per cask of each.

ORNAMENTAL FOUNTAINS.

Ordinarily used three hours a day for a period of not more than four months a year:

For a jet of 1-16 of an inch.....	$3 00
" " 1-8 " "	5 00
" " 1-4 " "	8 00

To be cut off at discretion of the Superintendent.

Rebates will be allowed only during such time as the water is shut off, but no rebate will be allowed for a period less than one month. When a house is vacated the owner must notify the Water Registrar to have the water turned off. When the house is again occupied the owner is to give notice to have the water turned on. The charge for shutting off and turning on water in vacated houses is 25 cents for each operation.

SECTION 16. When water is required for purposes which are not specified in the foregoing tariff, the rates shall be fixed by the Board of Water Commissioners, and the rates fixed in the foregoing tariff may be varied by the Water Commissioners whenever in particular cases in their judgment the interests of the town shall require.

B. DELMONT LOCKE,
Water Registrar.

REPORT

OF THE

Superintendent of the Water Works.

To the Arlington Water Commissioners:

GENTLEMEN—My report for the year ending December 31, 1900, is hereby respectfully submitted.

EXTENSION OF MAIN PIPE AND RENEWALS.

9856.4 feet of pipe have been laid, 24 gates and 21 hydrants established, including Broadway, where 3 hydrants and 1 gate had formerly been set but not placed in use, at a cost of $13,056.90. The subjoined table will show the different streets where pipe have been laid, with cost of material, labor, etc.

PIPE, HYDRANTS AND GATES ABANDONED.

7985.5 ft. of cement pipe, 12 hydrants and 11 gates have been abandoned, 1977.5 ft. of 12 in., 3328 ft. of 6 in. and 2680 ft. of 4 in. All but 2033 ft. has been replaced with iron pipe.

SERVICE PIPES.

There have been 76 services added during the year, 59 con-

nected with the high and 17 with the low-service systems, at an average cost of $13.35 each—$1,014.60.

Thirteen services have also been changed from low to high system.

HYDRANTS AND GATES.

There are now in use 326 hydrants and 265 gates; they are all in good repair; 5 leaky hydrants have been removed and replaced with new 5-in. hydrants.

LEAKS IN MAIN PIPE.

There have been a number of leaks in the old cement mains, but the most serious occurred on the morning of July 17, when the 12 in. main on Park avenue broke, owing to the settling of the filling for the R. R. bridge. It was thought best not to repair the break, but to lay a pipe on the surface across the Lowell street bridge to supply the Crescent Hill district. Later in the season the pipe was laid to the regular depth and made permanent.

LEAKS IN SERVICE PIPES.

A number of leaky services have been repaired and cleaned out; in very old services we find that the leak is nearly always at the stop-cock on the sidewalk; in most cases the iron pipes have rusted and broken off from the brass stop-cock. This is almost exclusively confined to the old or low-service.

On the high service the leaks are almost always confined to the goose-neck at the main pipe, and I am inclined to think that the pulsations of the pump cause the greater part of the leaks. A pipe should be laid from the pump direct to the stand-pipe.

METERS.

There are now 71 meters in use; 6 have been added during the year and 1 discontinued.

THE RESERVOIR AND STAND-PIPE LOT

Have received the usual care; the walks around the stand-pipe have been hoed and raked.

The rip-rap around the reservoir has been cleaned, the banks mowed, and the weeds raked in heaps and burned. The reservoir lot is in fairly good condition.

PIPE YARD.

Early in the year it was found desirable to provide a place for storing pipe, as the yard at the shop is of limited capacity. A piece of ground belonging to the B. & M. R. R. was leased for a term of years, and a derrick erected. As the track is laid alongside the yard the cars containing the pipe are backed under the derrick and unloaded, quickly and easily; this is found to be a great improvement over the old system of rolling the pipes from the cars by hand.

SHOP.

The shop, tools, horses, and wagons are in good condition.

Respectfully submitted,

THOMAS RODEN.

WATER WORKS.
